AMERICANS REPORT TO THE PRESIDENT

HUERTA IS UNWILLING THAT
CONSUL SILLIMAN SHOULD
RETURN TO SALTILLO,
HE SAYS.

By Associated Press.

Washington, June 27.—After receiv-
ing the report from the American
delegates of their conference with
Minister Naon, officials close to the
president made it known that Mr.
Wilson would be greatly surprised if
the constitutionalists do not enter the
conferences.

Huerta informed the United States
that he was unwilling that Consul
Silliman return to Saltillo. The re-
quest for the return was purely formal
as the constitutionalists are now in
control are now in control of the
city.

Jesus Carranza to San Luis.

Tampico Mex. June 27.—Jesus Car-
ranza left here yesterday with 1000
men and much supplies for San Luis
Potosi.

Ammunition for Rebels.

Galveston, Texas, June 27.—The
schooner Grampus cleared here today
for Havana carrying one million
rounds of ammunition for the consti-
tutionalists at Tampico.

Rate of Exchange Rose.

Mexico City, June 27.—The rate of

Batavia, Java, June 27.—Heavy seas
caused by an earthquake drove the
steamer Kintuck ashore in the
Straits of Sunda. Rescue vessels
saved her passengers today.

MONEY WAS LOANED BEFORE VOTE TAKEN

DISTRICT ATTORNEY SAID PAYN-
TER GOT MONEY BEFORE
HE VOTED IN FAVOR
OF LORIMER.

By Associated Press.

Chicago, June 27.—The United
States district attorney's office here
today issued a statement that U. S.
Senator Paynter borrowed \$29,150
from the Lorimer-Munday bank two
weeks before Paynter voted in favor
of Lorimer getting a seat in the sen-
ate.

RECEIVED GALVESTON BISHOP.

By Associated Press.

Rome, Italy, June 27.—The Pope to-
day received Bishop Gallagher of Gal-
veston, Texas.

JUBILEE OF BISHOP BURKE.

Albany, N. Y., June 27.—The cele-
bration of the golden jubilee of
Bishop Burke, for which the clergy
and laity of the Catholic diocese of
Albany have been preparing for many
months, will begin tomorrow and con-
tinue through next Tuesday. The ob-
servation will be ushered in with a
great parade tomorrow afternoon.
Thousands of representatives of the
different parishes of the diocese will
march through the principal streets
to the Cathedral of the Immaculate
Conception, from the steps of which
they will receive the benediction from
the Bishop. The parade promises to
be the largest affair of its kind ever
seen in Albany. Special trains have
been engaged to bring the delegations
from Utica, Amsterdam, Troy, Sche-
nectady, Saratoga and other principal
cities of the diocese. Some of these
delegations, according to the reports
received here today, will include as
many as 5,000 persons.

The celebration is in honor of
Bishop Burke's fiftieth anniversary as
a priest and the 20th anniversary
of his consecration as bishop. He
was ordained to the priesthood June
30, 1864, and assigned as an assistant
at St. John's Church in this city. In
1887 he became vicar-general of the
diocese and on July 1, 1894, he was
consecrated bishop in succession to
the late Bishop McNeirney.

MILITANTS REACH THE KING AND QUEEN

SHOWERED ROYAL PERSONS
WITH SUFFRAGETTE PAM-
PHLETS AND PELTED
QUEEN'S PARASOL.

By Associated Press.

London, June 27.—The suffragettes
at last reached the sacred person of
the king today. Two women slipped
past the police, meeting the royal
couple at the entrance to Hyde Park,
showering them with suffragette
pamphlets, knocking the king's hat
sideways and pelting the queen's
parasol. The police carried the wo-
men away, struggling violently.

SPEAKER CLARK ON WOMAN SUFFRAGE

SPEAKER SAID IT WAS INEVI-
TABLE AND HE WOULD
VOTE FOR IT IN HIS
OWN STATE.

By Associated Press.

Washington, June 27.—Speaker
Clark today told the suffrage dele-
gation that "woman suffrage is inevi-
table." The speaker added:
"I will vote for suffrage when the
question arises in Missouri."

Mr. Clark said that the only ques-
tion before the women is how to get
suffrage expeditiously, and he ad-
vised them that they would get it
quicker by states than by congress.

Petitions were presented to
Vice President Marshall asking for
suffrage legislation. The women said
that they opposed militancy.

STATE BANKS ARE NOT QUALIFYING

SMALL ENTRY OF STATE
BANKS INTO NEW
RESERVE SYSTEM.

By Associated Press.

Washington, June 27.—Only fifty
state bank and trust companies have
qualified for membership in the fed-
eral reserve system, although 7,500
national banks qualified. State laws
are blamed for the small entry of
state banks. Washington officials
say there are only a few states where
state banks can enter legally. These
include Texas and Arkansas.

TO ELECE CLAYTON'S suc-
CESSOR.

Montgomery, Ala., June 27.—A
special election will be held in the
Third congressional district of Ala-
bama on Monday to select a suc-
cessor to Henry D. Clayton, who re-
cently resigned his seat in the House
to accept a position on the Federal
bench. W. C. Mulkey and Joseph J.
Spreight are contesting for the place.
The successful candidate will serve
only until next March.

THOUSANDS IN BIBLE PARADE.

Chicago, Ill., June 27.—A parade of
30,000 enthusiastic young Christian
workers marched through the streets
of Chicago today in the most impres-
sive demonstration of its kind ever
witnessed in this city. The parade
was made up wholly of Bible Class
members and was held in connection
with the triennial convention of the
International Sunday School associa-
tion now in session here.

RACE MEETING AT MONTREAL.

Montreal, June 27.—The summer
race meeting of the Montreal Driving
Club was opened today and will be
continued until July 4. Nearly all of
the horses that have made good show-
ings on the Canadian circuit this
spring are quartered at the track. The
large and high-class entry list and
the attractive programme of events
are expected to result in one of the
most successful meetings ever held
under the auspices of the club.

COL. ROOSEVELT NOW ORDERED LONG REST

SUFFERING FROM EFFECTS OF
JUNGLE FEVER HE MUST
REFRAIN FROM WORK
FOR FOUR MONTHS.

By Associated Press.

Oyster Bay N. Y., June 27.—The
physicians today ordered Col. Roose-
velt to rest absolutely for four
months, as he is suffering from an
enlargement of the spleen and loss of
vitality from jungle fevers.

Col. Roosevelt announced that he
positively refused to rest. In four
months, he said, the campaign would
be over, consequently he would not
obey. Doctor Alexander Lambert of
New York made an examination. Dr.
Lambert said that Col. Roosevelt
must make no speeches. He said
that the strain of a campaign might
weaken even Roosevelt's mental
vigor. Roosevelt has abandoned his
proposed trip across the continent,
but intends to stick to the rest of his
program.

INVESTIGATING DEATH.

By Associated Press.

Dallas, Texas, June 27.—Mrs. A.
Thomas, widow of a Mesquite black-
smith, who died last week, was before
the grand jury today with her nine-
year old daughter in connection with
a secret investigation of the black-
smith's death. The body has been ex-
humed.

CAMPS FOR CONSUMPTIVES.

ably fatally hurt, Annie Loeffler of
Pittsburg killed and five others hurt
early today when their auto plunged
into a deep ravine.

MINIMUM WAGE FOR GIRLS.

Olympia, Wash., June 27.—The era
of "starvation wages" for shop girls
if it ever existed in the state of Wash-
ington, comes to an end today. Be-
ginning next week all women and
girls employed in mercantile estab-
lishments must be paid a minimum
wage of \$10 a week. This is in ac-
cordance with the decision of the
State minimum wage commission, ap-
pointed last year under the new mini-
mum wage law. The commission's
decision applying to girls and women
employed in industrial occupations
will come into effect on August 3, af-
ter which date all such employees
must be paid a minimum wage of
\$8.00 a week.

ELECTIONS IN ONTARIO.

Toronto, Ont., June 27.—The polit-
ical campaign in Ontario closed today
with speech-making in every part of
the Province and the mails flooded
with the final appeals of the candi-
dates to the electorate. On Monday
the general election will be held to
determine whether the Government
of Sir James Whitney, which has
been in power the past nine years,
shall be given a new tenure of office
or shall be succeeded by a Liberal ad-
ministration under the leadership of
Newton W. Rowell. The campaign
has been conducted with much spirit
on both sides. The workingmen's
compensation law, the policy of the
Government with reference to high-
way improvement and the establish-
ment of radical railways by munici-
palities, and the Government support
of local option in opposition to the
"abolish-the-bar" policy advocated by
the Liberals, have formed the prin-
cipal issues of the campaign.

TO DEAL WITH VILLA.

An innocent appearing dispatch from Washington says that the capture of Zacatecas "increases Villa's importance and he is expected to help towards the settlement of the Mexican question."

This naive observation, when analyzed, points to what has been surmised for some days—at least, since the break between Villa and Carranza was announced—that Carranza's stubborn resistance to the efforts made to induce him to enter the peace conferences would end in an appeal to Villa to save the situation.

For months past it has been observed that Villa, despite his lack of education, of military knowledge and of diplomatic usage, has "had something" on Carranza in every way.

His repeated victories have shown that he has at least the luck which has brought some commanders into high positions, and his successes do not seem to have blinded him to the main chance so far as endeavoring to retain the friendship of the American administration is concerned.

When Carranza made his first bad break by attacking this government for bad faith in occupying Vera Cruz and demanded the withdrawal of the American troops, Villa announced openly that the United States was the best friend the rebels had, and he counseled patience to his companions in arms.

Failing in his attempt to get a supply of ammunition past the embargo newly imposed, he philosophically made the best of it, and still announced his friendship for the United States.

And with each repeated victory, his prestige with his fellows rose, as well as his right to be treated with instead of his former commander, to whom he professed allegiance, but with whom he quarreled when the occasion arose.

If Carranza refuses to confer, even informally, with the Huerta delegates, and thus refuses the opportunity to gain a standing which his own career has not entitled him to, it is only to be expected that Villa will be treated with as the real representative of the constitutionalist armies, which he undoubtedly commands, no matter what Carranza may claim.

If the rebels are to have any standing in the settlement of the present difficulties, it would seem only natural that the man who has placed them where they now are should be reckoned with. His recent capture of Zacatecas indicates that only when commanded by Villa are the rebels capable of succeeding in a campaign. The capture of Monterrey cannot be classed as a military success. It was only after cutting off all chance of reinforcements arriving, which was the result of Villa's success at Torreon, that the rebels were able to take Monterrey.

With the single exception of the taking of Matamoros a year ago, there has not been a single campaign which has resulted successfully to other rebel commanders than Villa, except Tampico, and the surrender of that place was undoubtedly affected to a great degree by the occupation of Vera Cruz by the American troops.

Meanwhile the protocol has been signed at Niagara, in which the United States agrees to recognize the new provisional government to be formed and will resume diplomatic relations with Mexico. No indemnity is to be demanded, nor any satisfaction for any of the incidents growing out of the patrol of Mexican waters or the invasion of that country.

With the selection of the new provisional government the mediators now have nothing to do. This will have to be settled between the representatives of the two factions in Mexico, and with the choice of the two in harmony, peace should soon prevail in that country.

GOOD NEWS FOR TEXAS.

According to the Kansas City Times, there is a better prospect for Texas cattle men this year than for many years past. The shortage in cattle at the principal markets, it is said, can only be made up by grazing, and the movement of cattle from the grazing sections is far below normal, the only cattle coming from Texas below the quarantine line.

Last week the slaughter of cattle in Kansas City fell far below the normal, reaching an acute stage. The capacity of the Kansas City slaughter houses is 18,000 cattle daily, and for the last four days of the week the plants had less than one-seventh of the amount.

During the past week, the five principal Western markets received only 82,000 cattle, as against 123,000 in the same period of last year, or a decrease of 33 per cent. During the first five and one-half months of the year the shortage over last year was 12 per cent, and the shortage was increased by the unusually light weight of cattle this year, due to the scarcity of feed.

The only factor which has kept the prices for cattle within bounds has been the unusually small use of beef. The killers say that the consumption of mutton has increased, while pork and beef have decreased, thus keeping prices of cattle and hogs lower than expected and prices of sheep higher.

This year so far the decrease in receipts of the Kansas City stockyards have been 117,200 cattle and 225,000 hogs, while there was an increase of 18,000 sheep. And this is due mainly to the lack of grass fed cattle from the Southwest.

An unusually good stock raiser's year is with us. There is plenty of good grass, and the water tanks are full in almost every section. Feeders are scarcer, it is true, but there is still a sufficient supply for the border stockmen to warrant them in expecting a good year, especially as the demand is brisk at all times for grass fed stock.

One thing which should be taken advantage of is the increased value of good weight cattle. There has been an overplus of light cattle in the market, and it costs as much to ship

light cattle as it does to ship the heavier ones.

With the temporary beef famine threatened at Kansas City and the other markets also reporting a heavy shortage, with the Missouri Valley stockmen without a supply of marketable cattle, dependent upon the corn crop which will not be harvested until fall, with abundant grass and water in this section—everything points to a good year for the Southwest Texas cattle men.

Here the cattle can be turned into the market at a much earlier date than those which are fed on scanty grass and have to be fattened on corn before they are marketable.

Prospects are good just at present for a great number of Mexican cattle, as the northern part of the republic is in the hands of one party without any opposition from the other side. Payers who have had to treat with first one faction and then the other, paying expert duties to both in some instances, will not be slow to take advantage of the present conditions.

The people will not long be content to eat mutton. The normal demand for beef has fallen off as much because of the scanty supply as for any other reason, and unless the retail price soars too high, there will be a healthy demand for all that can be shipped.

And good grass, plenty of water and a pleading market make good news for Southwest Texas.

Zacatecas has fallen, after four days of fierce assaults, and the remnants of the garrison is reported to have gone toward Aramontes. With the reported evacuation of San Luis Potosi, the rebel forces would appear to have an open road to Mexico City now.

Washington despatches state that Carranza is coming to Nuevo Laredo for a conference with the leaders of his party. The authorities across the river say that they do not expect he will come there, and they are perhaps in closer touch with him than the people in Washington. At any rate, someone will have to move out if he comes.

Mayor Mitchell of New York dropped his pistol while at target practice, and it accidentally shot a friend who was nearby. By the way, what was the mayor doing with a pistol? Don't the Sullivan law include the mayor?

The big Claffin dry goods house was closed and put in the hands of receivers because a country merchant failed to pay his note. The assets are forty-four millions against liabilities of thirty-five millions. Which shows how lack of ready cash can make trouble.

Villa says that he lost 500 killed, but the heaps of dead where his men were shot by machine guns would indicate a much greater loss. But then if he does not minimize his losses, who will?

POLITICS AND POLITICS.

August 1 is the date for the Kansas primary election.

The field of congressional aspirants in North Carolina this year is unusually large.

Senator Thomas of Colorado, whose term will expire next March, is a candidate for reelection.

Judge William H. Wallace of Kansas City is out for the Democratic nomination for the United States senate in Missouri.

Lieutenant Governor Morris of Wisconsin will open his campaign for the United States senate with an address at Racine June 9.

Oscar S. Straus denies the report that he might accept the Progressive nomination for United States senator to succeed Senator Root.

Colonel Roosevelt's formal campaign for the Progressive party this year probably will be opened with an address in Pittsburgh on June 30.

Siever Semmard, of Devils Lake, is the choice of the North Dakota Progressives for the seat of Asst. J. Grona in the United States senate.

DEMAND REOPENING OF BRIDGE

Under the Circumstances Protest Made to That Effect Will be Watched With Interest.

A recent proposition of the reopening of the international railroad bridge over the Rio Grande between the two Laredos, and the continued closing of which has elicited a protest to the interstate commerce commission and the Texas railroad commission, by the Laredo Chamber of Commerce, there is much interest manifested by the people of both this city and Nuevo Laredo in view of the inconveniences experienced as the result of the officials of the National Lines of Mexico prohibiting its use at this time when the railroad properties in Northern Mexico are in the absolute control of the constitutionalists, who are operating trains on the Northern Division.

Trains have not been operating between the two Laredos since last March, when only for a short time traffic was in progress from Laredo to Nuevo Laredo and thence to Monterrey. Since then the bridge has not been used to accommodate trains recently the constitutionalists, following their numerous victories in Northern Mexico, the capture of Saltillo and Monterrey and intermediate points as far north as Nuevo Laredo, have established train service and are operating the trains under the name of the "Constitutionalist Lines of Mexico." The owners of the road are receiving no revenues or benefits from the operation of trains and have no say whatever in the conduct of the affairs of the company. However, their rolling stock and locomotives are being used to financial benefit by the constitutionalists. Besides this, two engines of the Texas-Mexican company which were sent over to Nuevo Laredo after that town was evacuated and destroyed by the rebels, were seized and pressed into service by the rebel forces and are still being used.

Since the resumption of train service, both passenger and freight, trains on the erstwhile National Lines have been operating from Saltillo and Monterrey to Nuevo Laredo and vice versa, but all merchandise had to be taken on at those places. Laredo merchants filling orders for places between Nuevo Laredo and Monterrey have been compelled to deliver their goods to the station in Nuevo Laredo, this being carried across the international foot bridge on wagons. Goods destined to this city from points in Mexico have likewise been carried by the railway as far as Nuevo Laredo and from there taken from the cars and transported across the international railway bridge to this city by wagon. This has proved a great inconvenience both ways and justly elicited the protest which has been made to the interstate commerce commission at Washington and the Texas railroad commission by the Chamber of Commerce, which represents the business interests of Laredo.

But whether or not the protest will avail anything, in view of the circumstances, remains to be determined. What view the interstate commerce commission will take of the matter will also be a determining factor when they put the proposition squarely up to President Brown and other officials of the National Railways at Mexico City. However, the outcome of the fight to compel the officials of the railway company to reopen the bridge to traffic will be watched with keen interest by the people of this city.

DEATH OF MRS. F. H. LITHGOW

After Five Days Illness Good Woman Passed to Eternal Reward This Morning.

A shadow of deepest gloom was cast over this community this morning when the sad intelligence reached the many friends of the family announcing that Mrs. Magdalene A. Lithgow, wife of F. H. Lithgow, had peacefully passed into that world where there is no more suffering and where the patient sufferer received her reward of eternal rest. Since last Monday, when at her home near Isletas, she suffered a hemorrhage of the brain, Mrs. Lithgow had been in a comatose condition, never regaining consciousness. The sufferer was removed to this city on Wednesday. Gradually each day the afflicted one became weaker and those who sat at her bedside and did everything that human hands could do to prolong her life despaired of her ultimate recovery. This morning at 8:35 o'clock, at Mercy Hospital, the soul left its earthly tenement and entered its eternal home where life everlasting is promised all.

Mrs. Lithgow was a native of Brooklyn, N. Y., where she was born about 40 years ago. Her maiden name was Miss Magdalene A. August, and she was a daughter of Dr. John J. August, a prominent pioneer physician of Brooklyn. On October 6, 1898, in Roslyn, N. Y., the subject of this sketch was married to Mr. Fred H. Lithgow, and soon thereafter the happy couple removed to Laredo to make their home and have resided here ever since, most of the time making their home on the Lithgow farm near Isletas, where Mrs. Lithgow was at the time she suffered the fatal malady which ended in her death. Deceased was a woman beloved by those who knew her best, a good Christian and a devoted wife. In her death the husband loses a loving companion, the brothers and sisters a dear relative, and the community a good woman, and to these go out the sincere sympathy of their friends in their bereavement.

Besides her husband, Mr. F. H. Lithgow, deceased is survived by one sister, Mrs. Ida Griesel, of Brooklyn, and one brother, Dr. J. J. August of New York City. The remains have been removed from the Mercy Hospital, where death occurred to the home of Mr. and Mrs. G. H. Winch, from where the funeral will take place tomorrow morning at 10 o'clock, with interment in the Masonic burial grounds in the city cemetery.

TEN THOUSAND ARE HOMELESS IN SALEM

FIRE DESTROYED BUILDINGS OVER LARGE AREA WITH DEATH LIST SO FAR OF THREE PERSONS.

By Associated Press.

Salem, Mass., June 26.—The fire death list was raised to two today when a body was taken from the ruins so charred that its sex was unrecognizable. Wagons and automobiles at daylight brought vast quantities of food from surrounding cities for the 10,000 homeless. The fires still smoldered today, but the danger seemed over, the burned area was semi-circular, three miles long and a mile to a half mile wide.

Ten thousand factory workers lost only their homes but their employment, nearly all the factories burning. A tent colony for 5,000 has been established at the baseball park.

The death list was later increased to three and the loss is stated to be \$10,000,000.

Imports Are Light.

At this time the importations through the port of Laredo from Mexico are comparatively light, and what little stuff that is coming in is being crossed by wagon over the international foot bridge. Yesterday one carload of corn and a car of little were crossed to this side, while a carload of pecans, which arrived in Nuevo Laredo yesterday, will probably be crossed in wagons to this side today.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by a constitutional remedial treatment. Deafness is caused by an inflammation of the mucous lining of the Eustachian tube. When this tube is inflamed, you have a running ear or a deaf ear, and when it is entirely closed, deafness is the result, and unless the inflammation can be removed, and the tube restored to its normal condition, hearing will be destroyed forever. Cases out of ten are cured by the method which is nothing but an isolated condition of the mucous surface.

WAS BEAUTIFUL HOME WEDDING

Dr. Robert A. McCulloch of Corpus Christi and Miss Pearl Winch of This City Are Wedded.

A beautiful and impressive home wedding, simple in all its appointments, was solemnized in this city on Wednesday evening at 6 o'clock when Rev. Henry Austin, pastor of the First Presbyterian church of Corpus Christi, pronounced the words which linked the destinies of two happy young people, Dr. Robert Andrew McCulloch of Corpus Christi and Miss Katherine Pearl Winch of this city. The ceremony took place at the home of the bride's parents, Mr. and Mrs. G. H. Winch.

There were no attendants and the ceremony was witnessed only by members of the families of the contracting couples and a few intimate friends. Precisely at the appointed hour the happy couple, preceded by the ribbon bearers, Pearl and Ruby Colman, Holcombe Austin and Freddie Winch, formed in the hall of the Winch home. Following a solo by Mr. Robert Moynahan, "Love's Coronation," the bride on the arm of the groom entered to the melodies of Mendelssohn's wedding march, rendered on the piano by Miss Roberta Kelly. Proceeding to a place beneath the large white wedding bell which occupied a place in the decorated parlor, where there was a profusion of ferns and shasta daisies arranged about the room with esthetic taste, they were met by Rev. Henry Austin, and there took place the pronouncement of the impressive words which made the happy couple man and wife.

Following the consummation of this important event and the extending of felicitations and well wishes the bridal party and guests repaired to the dining hall, where a large wedding cake was cut, the thimble falling to the lot of Mr. Robert Moynahan, the ring to Miss Lucille Murphy and the dime to Miss Flora Bunn.

The beautiful and winsome bride was becomingly attired in a gown fashioned of soft white charmeuse with slightly decollete bodice trimmed with pearl bands. The draped skirt had a deep tunic of shadow lace caught at the shoulders and falling in soft folds was the full court train. The veil, which was arranged with a coronet band of orange blossoms, was of tulle and fell the length of the train, where it was finished with a broad cuff edged with orange blossoms. The only ornament worn was a pendant of diamonds and pearls, a gift of the groom. She carried a bouquet of white carnations and lilies of the valley.

The wedding gown was later changed for a traveling costume—a brown coat suit worn with small hat of leghorn straw with touches of brown.

The bride is a daughter of Mr. and Mrs. G. H. Winch and one of Laredo's most popular young ladies, who, by her pleasant ways and happy disposition has endeared herself to all who know her. One of the teachers of the public schools here for several years, she won the love and esteem of pupils, parents and co-workers. The fortunate groom is a former Laredo young man, but now one of the leading professional men of Corpus Christi, to which place, after a short honeymoon trip to Colorado, they will go to make their future home down by the seashore. Dr. and Mrs. McCulloch left for Colorado last night and will be at home to their friends after the bridal trip at the Williams Hotel in Corpus Christi.

To Dr. and Mrs. McCulloch go the congratulations and well wishes of a host of friends for a long and happy life, and may they, as they listen to the murmuring of the sea in its lull upon the shelly shores, have only the melodies of happiness, joy and prosperity surrounding them.

CRUZ BLANCA VISITS MONTEREY

Local Relief Society Left This Morning to Greet Venustiano Carranza.

Faustino Garcia, accompanied by fifteen of the Cruz Blanca, left this morning for Monterey, where they will pay their respects to Venustiano Carranza, the constitutional chief, who is due to arrive in that city today from Saltillo.

The Cruz Blanca is the relief society of the constitutionalists, modeled along the lines of the worldwide Red Cross Society.

REBELS CAPTURED ZACATECAS

This Was the Information Conveyed in an Official Telegram to Nuevo Laredo This Morning.

Customs Collector Alfonso C. Villareal of Nuevo Laredo this morning received an official telegram from constitutionalist headquarters in Saltillo, informing him that General Pancho Villa, at the head of a large rebel army, last evening defeated and routed the federal forces and captured Zacatecas, which they now occupy. The federalists put up a stubborn resistance and the battle was a most sanguinary one, resulting in several hundred killed, while the constitutionalists took a large number of prisoners and a big quantity of arms and ammunition. General Villa and his victorious forces now occupy Zacatecas.

From this strategic point the rebels will doubtless move closer to the Mexican capital as it was stated several days ago that with the capture of Zacatecas Villa would have an easier path to Mexico City.

Calls For Bids.

Bids will be received up to noon July 7th, 1914, for the erection of three storm sewers for the City of Laredo. Also for the extension of the present sewer. Plans and specifications can be seen at the office of the City Secretary. Individual copies will be furnished the bidder on the payment of five dollars. The City Council reserves the right to reject any or all bids. This work will be subject to the result of a local election.

CAPTURED CAVALRY DESERTER

Guard Who Deserted After Letting Mexican Prisoners Escape is Apprehended.

After the battle of Nuevo Laredo, when the rebel prisoners were under guard of American soldiers at the private hospital in Laredo, some of the prisoners escaped. The guard, who feared that he would be punished for permitting their escape, deserted and crossed the river near San Ignacio, where he joined the Mexican rebel forces. Up to last night nothing further had been heard of him.

Last night about 11 o'clock the watchman at the bridge challenged a man who approached from the Mexican side. The man said he was an Englishman and had resided in Mexico for six months, coming last from Tampico. The inspector in charge told him that he would have to return to Mexico unless he paid the \$4 head tax required by the government.

At this juncture, Inspector Maurice Diden stepped forward and said the man's description would have to be taken before his return to Mexico. Upon the man coming into the light, Mr. Diden recognized him, and when he was questioned he said that he belonged to K Troop, 3d Cavalry.

This morning he was taken to the guardhouse at Fort McIntosh and upon being questioned, acknowledged (it is said) being the guard who permitted the escape of the Mexican prisoners from the residence of Mrs. Leonor Magnon, under whose care the wounded men were.

HE ENDORSED A NOTE WHICH WAS NOT PAID

BIGGEST DRY GOODS HOUSE IN NEW YORK IS NOW IN THE HANDS OF THE RECEIVERS.

By Associated Press.

New York, June 25.—There was a flurry in the financial district today when receivers were named for the vast wholesale dry goods house of H. B. Claflin & Company here. Over-extension of credits is the cause. Bankers say that the many retail subsidiaries connected with Claflin will not be affected.

The Claflin company controls twenty-eight dry goods firms throughout the United States. Nearly 3,000 banks hold the paper of these stores.

Claflin endorsed a note by interior merchants for goods sold. These merchants were unable to pay their note on account of dull business. This is the main source of the trouble. Claflin's liabilities are \$35,000,000 and his assets \$44,000,000.

Claflin Stores Closed. New York, June 25.—All the Claflin stores in the country will be closed temporarily.

Another Concern Closed. Kansas City, Mo., June 25.—The Jones store here, a Claflin concern, went into receivership today.

LIQUOR LAW CONFERENCE.

Parkersburg, W. Va., June 25.—Mayors, sheriffs, prosecuting attorneys and other officials of counties and cities throughout West Virginia conferred here today with Fred O. Blue, State tax commissioner, on plans for the enforcement of the new liquor prohibitory laws which are to become operative on July 1. All the municipalities are to be asked to enact uniform ordinances that will prohibit the manufacture and sale of intoxicating liquors.

EXPERIMENT STATION CONFERENCE.

Lexington, Ky., June 25.—A national conference of agricultural college and experiment station editors was opened at the Kentucky College of Agriculture today and will be continued over tomorrow. Editors and publicity men are in attendance from the United States Department of Agriculture and the agricultural colleges of Ohio, Minnesota, Iowa, Illinois, Georgia and other States.

MICHIGAN STATE GOLF TOURNEY

Detroit, Mich., June 25.—The championship tournament of the Michigan State Golf association opened today on the Country Club links at Grand Pointe and will continue through tomorrow and Saturday. Many of the most expert golf players of the State are among the entrants and some spirited competitions are expected before the tournament is ended.

By Associated Press.

Zacatecas, Mex., June 25.—(Delayed in transmission)—Villa captured this city Tuesday at sunset, after four days' fighting. He officially reported the federal dead at 4,000, wounded 2,000 and that he captured 5,000 prisoners, 12 cannon, 9 trains and 2 carloads of rifle ammunition and cannon shells, 6,000 Mauser rifles and much provisions. Villa estimates his own dead at 500, with 800 wounded. Villa says:

"After four days' hard attacks, today's was the decisive one. The enemy, numbering 14,000, was completely defeated by my force. The enemy who escaped went toward Aguascalientes, after dynamiting the postoffice, state treasurer's office, the stamp and revenue buildings. These explosions killed many of our men, destroying a part of the city. The federalists destroyed every fort."

Villa complimented Natera for his heroism in fighting. The constitutionalists scaled hill after hill, some so steep that the men crawled on their hands and knees, having their rifles handed up after them, all the while under machine gun fire. There are heaps of dead all over the mountain sides. Villa, at ways in the van, had five officers wounded about him. The fighting was hand-to-hand for four days. No accurate account of the dead has been made. The federal recruits made desperate resistance.

Outlook is More Promising.

Washington, June 25.—After a conference today with Secretary Bryan, President Wilson authorized a statement that the Mexican outlook was more promising than ever before. This opinion was based upon the signing of the protocols at Niagara Falls last night and the capture of Zacatecas. Administration officials say that this capture increases Villa's importance and that he is expected to help towards a settlement. It is reported that Mr. Wilson sent Herbert Brown of Washington to confer with Carranza.

Carranza to Laredo.

Washington, June 25.—Carranza is planning to go to Laredo very soon to get in direct touch with constitutionalist agents here to discuss mediation.

It is expected that Urquidí will meet Carranza at Nuevo Laredo.

Reports Rodriguez Dead.

El Paso, Tex., June 25.—Zacatecas reports say that constitutionalist General Rodriguez died of his wounds.

GREAT BUSINESS REVIVAL.

By Associated Press.

Washington, June 25.—President Wilson this afternoon predicted that the country was on the verge of a great business revival.

IOWA STATE BAR MEETING.

Burlington, Ia., June 25.—Members of the Iowa State Bar association assembled in this city today and began their twentieth annual meeting. The morning session was devoted to the exchange of greetings and the work of organization, following which a memorial address was delivered in honor of the late Major John F. Lacey of Oskaloosa, who was president of the association. The annual address was delivered this afternoon by Prof. Roscoe Pound of Harvard University. The association will conclude its business tomorrow.

EDMONTON TO HAVE PAVING PLANT.

Edmonton, Alta., June 25.—The city of Edmonton has arranged to establish its own paving plant. It is to cost about \$37,000 and will be in operation within 30 days. It is planned to lay about 100,000 square yards of paving before the close of the season. This will provide work through the summer and fall for a large number of men who are now unemployed. Mayor McNamee said today that the plan is to operate the municipal paving plant in competition with independent companies, with a view to lessening the cost and keeping the money at home. The entire paving programme for this year involves a total expenditure of more than \$1,500, part of which will be financed by the Hudson's Bay company.

SUMMER FAIR AT REGINA.

Regina, Sask., June 25.—Farmers and stock raisers throughout Saskatchewan are looking forward with eager interest to the Provincial Exhibition Association's annual Summer Fair which is to be held here during the last week of July. Prizes to the amount of \$25,000 are offered for competition in the numerous departments. These departments comprise classes for heavy and light horses, beef and dairy cattle, sheep, swine, poultry, creamery and dairy products, seed grain and other farm crops, horticultural products, school children's exhibits, women's and fine arts. The exhibition promises to be the largest and most notable of its kind ever held in western Canada.

MASONIC TEMPLE DEDICATED.

Laporte, Ind., June 24.—High degree Masons from numerous cities of Indiana and some from Illinois and Michigan gathered here today to help in the dedication of the new Masonic Temple. The dedication programme covered the entire day and included a parade, an exhibition drill and several other features in addition to the speaking. Grandmaster Martin A. Morrison and other grand officers of the Masonic order in Indiana were in attendance.

As a congressman Mr. Cooper made an excellent record and as a member of the board of appraisement he has given general satisfaction to all concerned in the workings of that department.

From Wednesday's Daily.

IN THE LAST DITCH.

A desperate effort is being made to show to the world that the reported break between Villa and Carranza was either a misunderstanding of the real situation or that it has been patched up successfully.

Both Carranza and Villa are reported to have disclaimed the break, and the people to whose interest it is to minimize the affair point to the statements purporting to emanate from the chief and his erstwhile follower as proof that they are now in accord.

But one thing is very significant. Neither from Saltillo nor from Torreon is any news of importance being sent out, and the statement is made by the correspondents that a rigid censorship is now on at both places.

The commissioners from Carranza to Washington have refused to discuss their mission, save to state that Carranza will not accept the invitation of this country to enter the informal conferences, and their silence is ominous of what their mission really is.

When the correspondents of the Associated Press and of the great newspapers cannot get out any news of importance it is certain that something is being suppressed. And the denials of the rupture between Villa and Carranza are too vague to be accepted as the real truth of the situation.

A general shake-up in the Carranza cabinet has followed the break, and Carranza himself confirms the reported dismissal of Angeles, who, the despatches say, "he considers responsible for the trouble between Carranza and Villa."

Reports to the effect that Villa will continue to fight his way at the head of the army into the City of Mexico, regardless of what action Carranza may take, indicate that Villa no longer considers himself bound by the former agreement (or any other) with the "supreme chief."

It is apparent that the despatches from Washington, announcing that Villa's choice of Angeles as provisional president was acceptable to the United States, have had some influence on Carranza, and it is more than probable that the mission of his emissaries is to make a desperate effort to induce the Washington administration not to throw him over for Villa.

At present all information which seeps from Torreon passes through the hands of Carranza's agents, and it is doubtless being colored to suit the occasion. On the other hand, the news from Saltillo comes straight from Carranza's headquarters—the news that is allowed to pass, that is—and of course, it would not be permitted to pass were it unfavorable to Carranza's pretensions.

Should Carranza really refuse to be drawn into the conferences, it is extremely probable that overtures will be made to Villa or to other prominent constitutionalists to induce them to enter the conferences on behalf of their followers.

The reasons which were stated to the Huerta delegates which should make their conferences with the Carranza delegates desirable included the advisability of averting a foreign war which might result from a continuance of hostilities. This is a pretty direct insinuation of what might occur should no agreement be reached for a speedy restoration of peace.

The Huerta delegates are also actuated by a desire to save Mexico from further spoliation, and their prompt agreement to the proposed conferences is an indication of their willingness to do all within their power to secure peace for their country.

Upon Carranza's willingness or unwillingness to confer with the Mexican delegates probably rests his future. Failure of his plans just now would spell inevitable defeat for him in the future.

INDIGENT CONSUMPTIVES.

A strong effort is being made to have the federal government establish hospitals for indigent stranger consumptives in the Southwest. It is known to every resident of this great section that annually many people come to the Southwest for relief from the dread disease, and that many of these people are without means or even relatives who could aid them.

For the sufferer from tuberculosis four things are necessary. Fresh air, care, rest and nourishment. Even the fresh air is not available to the indigent sufferer, who is compelled to live in a small room, usually without adequate ventilation. As to care, rest and nourishment, none of these can be obtained without money.

The idea has obtained for many years that in the climate of the Southwest the sufferer from tuberculosis will find relief, if not complete restoration to health. And many come here with the one idea that nothing else is necessary.

Some are able and willing to work for their living. Others are either unable or unwilling to accept any sort of employment, while at the same time they are unable to support themselves in the manner in which a consumptive should live.

Late methods of treatment have shown that even in the frigid North a cure from tuberculosis is possible when one follows the prescription of the physician, which includes abundance of fresh air, moderate exercise and liberal nourishment. It is not necessary to come to the Southwest in search of the fabled fountain of life; one can find it at home provided he has the means to follow the doctor's directions.

The coming of so many thousands of indigent consumptives to this section is a burden upon the people, and some means should be found of relieving them of this burden. This the senate and house bills now under consideration will do if passed.

The establishment of federal hospitals for the indigent sick would not only relieve the various states of the Southwest of the great burden of their support, or the cost of sending them back to their homes, but it would remove a dangerous source of

infection which threatens the various towns and cities where they congregate in search of health.

So strongly has this latter question affected some of the people that in many places consumptives cannot find a place to live, the boarding houses and hotels refusing them admission, and many of the towns passing ordinances refusing them permission to live within the jurisdiction of the town.

The states of the Southwest have endorsed the plan to establish government hospitals, as they realize that this would be a ready means of preventing the spread of infection, as well as assuring the physical care of these unfortunate who are unable to care for themselves.

The sufferer from tuberculosis who is not segregated from healthy people threatens them with infection with the dread disease, which the latest statistics show causes over 200,000 deaths per annum in the United States alone.

Very few employers want consumptives in their employ, and those who have families of their own do not want to expose them to infection by working alongside of consumptives.

A federal institution for the care of the tuberculosis patients could be made at least partly self-supporting, as there are many who have not yet reached the final stages of the disease, who are able to perform many kinds of work.

Our own congressman, Hon. John N. Garner, is a member of the committee of ninety-nine of the Southwestern Conference on Tuberculosis, which is making strenuous efforts to have the bills passed through congress, and we may rest assured that he will do all in his power to aid in this important work.

Breceda says Carranza won't accept the United States' invitation to informally enter the conferences at Niagara Falls. We imagine it was not expected that he would, and if Villa will only wipe off some of the bloodstains, we may flirt with him for a while.

A cave-in occurred in Brooklyn, half a city sidewalk dropping into the subway, killing one man and injuring six others. And yet there are people who prefer New York to Laredo!

It was a quiet day in shipping circles. One steamer went ashore on the rocks and two others collided. It must be hard to have to endure such deadly monotony.

Barbers in a Kansas town put up a sign "No shaves or haircuts except on Saturday," and went to the harvest fields to help the farmers. Their experience in mowing alfalfa ought to make them acceptable.

John Wanamaker says it is "an in-sane thing" not to recognize labor organizations. And John has made a fortune by his business methods, while Rockefeller, who refuses to recognize the unions, seems apt to lose a big hunk of money in the deal.

Americans told the Olympic games committee that baseball was played in England, whereupon the British delegate had such a fit that the statement was withdrawn. Perhaps what they play over there is not really baseball, after all.

George Von L. Meyer, former diplomatist and cabinet officer, was born in Boston, June 24, 1858. He graduated from Harvard in 1879 and ten years later made his debut in politics as a member of the Boston city council. He next served with distinction in the Massachusetts legislature, acting as speaker of the house during three of the five years that he was a member of that body. In 1899 Mr. Meyer was elected Massachusetts Committee. From 1909 to 1905 he was member of the Republican National United States ambassador to Italy. In 1905 he was transferred to Russia, where he represented the United States at St. Petersburg until chosen by President Roosevelt to be Postmaster General in the cabinet of President Taft. He held the post of Secretary of the Navy. Mr. Meyer is a man of large wealth and a controlling factor in many large industries in New England.

ECHOES FROM EAGLE PASS.

Eagle Pass Happenings Always Interest Our Readers.

After reading of so many people in our town who have been cured by Doan's Kidney Pills, the question naturally arises: "Is this medicine equally successful in our neighboring towns?" The generous statement of this Eagle Pass resident leaves no room for doubt on this point.

Mrs. Otto Ziegler, Cayton St., Eagle Pass, Texas, says: "We have used Doan's Kidney Pills in the family with fine results and recommend them to everyone. One of the household suffered from backache and weak kidneys. He used Doan's Kidney Pills and they gave him relief."

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional medicine. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, it has a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be lost forever. Catarrh of the Eustachian Tube is caused by a cold in the head, which is nothing but an inflamed condition of the mucous surfaces.

GIVEN A SUSPENDED SENTENCE

For Theft From the Person, and When Released Was Deported by Immigration Authorities.

Given a suspended sentence following a verdict of the jury assessing his punishment at three years in the penitentiary on a charge of theft from the person, to which he had pleaded guilty, and then when he was liberated by the sheriff being seized and deported by the United States immigration authorities, was the predicament in which Alberto Jasso, a Mexican, found himself yesterday afternoon, but now he is on Mexican soil, with the admonition not to try to return to the United States under penalty of severe punishment.

It appears that Jasso had been wanted in Kansas City for some of those officers there could not get sufficient evidence to convict him and he was deported to Mexico through this port last year. When the Mexican residents of Nuevo Laredo fled to the American side here during the battle on January 1, Jasso was among the refugees and was taken into custody and put into the immigration detention camp, with a number of Syrians. While in the camp he robbed one of the Syrians of something like \$165 and later was arrested charged with theft from the person. Yesterday Jasso was tried and convicted on this charge and given three years in the state penitentiary, but on recommendation of the jury he was given a suspended sentence and liberated.

As he was about to leave the court room he was taken charge of by Immigration Inspector Trout and escorted to the international bridge and thence to the monument, where he was deported to Mexico as an undesirable citizen with explicit instruction never to return to the American side of the boundary line. As he had been previously deported, under the circumstances surrounding his re-entry, he was not punished for violation of the order given him at the time not to return to this country, for it was during a battle that he crossed to the American side for safety.

ASSUMED CHARGE THIS MORNING

Newly-Appointed Collector of Customs of Nuevo Laredo Was Inducted Into Office Today.

Mmanuel Cavazos Garcia, a merchant of this city, who since the occupation of Nuevo Laredo by the constitutionalists has been acting in the capacity of customs collector of the port of Nuevo Laredo, this morning vacated the office and Alfonso C. Villareal, who arrived here yesterday, took charge of the affairs of that important and lucrative position.

The new collector of customs is a former Laredo boy, a brother of General Antonio L. Villareal, governor of the state of Nuevo Leon. In mentioning the appointment of the young man as collector of customs in yesterday's Times it was erroneously stated that he had been selected by General Villareal, when in fact the appointment was made by General Carranza, the constitutionalist chief. The new collector can now be found at his office in Nuevo Laredo in the building on the northeast corner opposite the ruins of the Concordia Theatre building, where is also maintained the military headquarters and telegraph office.

COL. BARTH GOES TO ILLINOIS

Will Assume Command of the Maneuver Camp; Came Here With Ninth Infantry Regiment.

Colonel C. H. Barth, who came here at the time that the Ninth Infantry arrived at the Fort McIntosh reservation to go into camp, will leave in a few days for Springfield, Ill., where he has been assigned to assume command of the maneuver camp which will be established there beginning on July 5.

Colonel Barth, who is the adjutant of the brigade to which the Ninth Infantry belongs, and of which it is the ranking regiment, has made numerous friends during his stay in Laredo, and while they all regret to see him leave at this time, they extend him best wishes and hope he will some day visit this section again.

Given a Farewell Smoker.

Last evening at their hall Aztec Lodge No. 111, Knights of Pythias, gave a farewell smoker in honor of one of their most valued members, W. O. Staver, who leaves tonight for Colorado, accompanied by his estimable wife, to make his future home. At the social last night refreshments were served, the honoree was the recipient of many felicitations for a happy and prosperous future and generally received the well wishes of his many friends. A royal good time was enjoyed by all those present.

ADOLPH O. EBERHART.
 Adolph O. Eberhart, the present governor of Minnesota, was born in Sweden, June 23, 1870. When he was 19 years old, his parents emigrated to the United States, but the family funds would not permit of the boy accompanying them, and he was left in Sweden. A year later young Eberhart made the journey alone and soon after his arrival in America he found employment on a ranch in Nebraska. He aided in the support of his parents and not until he was nearly 21 years old did he find an opportunity to attend school. With a little money he had saved he entered Gustavus Adolphus College in 1891, and by extraordinary diligence he succeeded in completing a seven years' course of study in less than four years. He then began the study of law in Mankato, Minn., and after his admission to the bar three years later he soon attained prominence in his profession. In 1907 he was elected to the Minnesota senate, on the Republican ticket. His legislative record brought him prominently before the public and in 1906 he was elected lieutenant governor. In 1909 Mr. Eberhart became governor on the death of Governor Johnson. In 1910 he was elected for the full two years term and in 1912 was re-elected.

SHERIFF'S SALE.

Notice is hereby given that by virtue of an order of sale issued out of the District Court of Webb County, Texas, on the 12th day of June, 1914, and to me directed and delivered, in a certain case therein mentioned, wherein the City of Laredo is plaintiff, and Juanita S. de Noron et al. are defendants, and wherein said city recovered a judgment against the said Juanita S. de Noron et al. on the 14th day of November, 1912, for the sum of One Thousand One Hundred and Sixty-four and 90/100 dollars, with a foreclosure of a tax lien on the following described property, viz: Lots numbers six (6) and nine (9), in Block number nine (9) in the Western Division of the City of Laredo, Webb County, Texas.

I have levied upon the above described lands, and will sell the same to the highest bidder for cash, between the hours of 10 o'clock A. M. and 4 o'clock P. M., at public auction, for cash, on the first Tuesday, the 7th day of July, 1914, in front of the Court House door, of said Webb County, Texas.

Given under my hand, this 15th day of June, 1914.

NOTES FROM THE LABOR WORLD

The Order of Railroad Telegraphers gained 286 new members in April.

Nearly half a million men are employed in munition enterprises in Saxony.

A union movement has been started by girls employed in offices and stores in Toronto.

There were nearly 95,000 textile workers involved in strike in Great Britain last year.

A justice of the New York supreme court has decided that it is illegal to make a man work on Sunday.

The International Brotherhood of Foundry Employees will hold its convention next August in Schenectady.

The city council of Regina, Sask., has decided to insert a union clause in all contracts let by the city.

A measure is to be introduced in the Dominion parliament next session to establish labor bureaus on the British model.

The fifty-ninth working week as applied to factories and mercantile establishments has gone into effect in Switzerland.

The International Association of Bridge and Structural Iron Workers will hold its annual convention in Peoria in September.

The Supreme court of the United States has upheld the constitutionality of the New York law requiring railroads to pay their employees semi-monthly in cash.

Twenty thousand membership certificates of \$5 each are to be issued in St. Paul in order to raise funds to build the \$100,000 labor temple in that city.

What is believed to be the largest verdict ever given a workman in the United States was awarded by a jury in White Plains, N. Y., recently to Oscar Fried, who had both arms burned off while in the employ of the New York, New Haven and Hartford Railway, the amount of the verdict being \$75,000.

STOMACH TROUBLES

Mr. Ragland Writes Interesting Letter on This Subject.

Madison Heights, Va.—Mr. Chas. A. Ragland, of this place, writes: "I have been taking Theodor's Black-Draught for indigestion, and other stomach troubles, also colds, and find it to be the very best medicine I have ever used."

After taking Black-Draught for a few days, I always feel like a new man. Nervousness, nausea, heartburn, pain in pit of stomach, and a feeling of fullness after eating, are sure symptoms of stomach trouble, and should be given the proper treatment, as your strength and health depend very largely upon your food and its digestion.

To get quick and permanent relief from these ailments, you should take a medicine of known curative merit.

Its 75 years of splendid success, in the treatment of just such troubles, proves the real merit of Theodor's Black-Draught. Safe, pleasant, gentle in action, and without bad after-effects, it is sure to benefit both young and old. For sale everywhere. Price 25c. N. C. 12.

SOUTH CAROLINA FIREMEN.

Florence, S. C., June 23.—This place is entertaining for three days the annual convention and tournament of the South Carolina Firemen's association. Delegations of fire fighters are here from all the leading cities and towns of the State. Prize races and other contests make up the tournament programme. At the business sessions addresses are to be delivered by Chief James McFall of Knoxville, Va., A. M. Schoen of Atlanta, Chief Louis Behrens of Charleston, and others.

OHIO CHRISTIAN ENDEAVORS.

Steubenville, O., June 23.—Delegates representing 2,500 local societies of the Christian Endeavor union in Ohio rallied here today for the twenty-ninth annual convention of their State organization. The convention will be held for the discussion of all phases of church and missionary work. Addresses will be delivered by Dr. J. Campbell White of New York, Bishop William M. Bell of Los Angeles, Dr. Ira Landrith of Nashville and a number of other religious workers of wide reputation.

In addition to Colonel Roosevelt the Progressive party leaders who are expected to speak in the interest of the Washington party nominees in Pennsylvania this fall include ex-Senator Albert J. Beveridge of Indiana, Senator Moses E. Clapp of Minnesota, ex-Governor George C. Peck of California, Congressman Victor Murdock of Kansas, Judge Ben B. Lindsey of Denver and Prof. Charles E. Merriam of the University of Chicago.

Because of the act passed at the recent session of the legislature to make the State law conform to the Seventeenth Amendment to the Federal Constitution providing the manner and form of electing United States senators, will not become effective until June 16, not having an emergency clause, Kentucky will have one vacant seat in the United States senate until that date, the Governor being powerless to appoint Senator Bradley's successor until the new enabling act becomes effective.

PRINCE OF WALES IS 20 YEARS OLD.

London, June 23.—The Prince of Wales celebrated his twentieth birthday anniversary today and was the recipient of many presents and messages of greeting from his royal relatives and friends. The anniversary was officially observed by the ringing of the bells of St. George's Chapel and of Windsor Parish Church, and the firing of an artillery salute in the Long Walk, Windsor Great Park.

Born at White Lodge, Richmond Park, June 23, 1841, his Royal Highness was baptized there some three weeks later as Edward Albert Christian George Andrew Patrick David, thus combining the names of his father, his grandfather, and his great-grandfather with those of the patron saints of England, Scotland, Ireland and Wales. In 1907, he passed the qualifying examination for the Royal Navy and entered Osborne College. He completed his course of instruction there in two years and then entered Dartmouth College.

On the accession of his father, King George, to the throne on May 6, 1910, Prince Edward succeeded to the Dukedom of Cornwall and to the Scottish title of Duke of Rothesay, Earl of Carrick, Baron of Renfrew, Lord of the Isles, and Great Steward of Scotland, and a short time later he was created Prince of Wales and Earl of Chester.

The Prince of Wales was sent to Oxford and within another year will probably make a world cruise as did his father and grandfather in their youth. Ten days ago the young Prince performed his first public ceremony, laying the foundation stone of a new church on his own London estate.

WANAMAKER SAID IT IS INSANE THING

CRITICIZED ROCKEFELLER FOR NOT RECOGNIZING LABOR ORGANIZATIONS IN COLORADO MINES.

By Associated Press.

Philadelphia, Pa., June 23.—"It is an insane thing not to recognize organizations of labor," said John Wanamaker today in his testimony before the United States commission on industrial relations. He said that he believed that unions in the past have "suffered frightfully because of poor leaders." He thinks their leaders are now better. Mr. Wanamaker remarked:

"Rockefeller made a great mistake when he put President Wilson in the position of sending troops to Colorado."

He predicted a rosy future for workingmen. He declared for government ownership of railroads and public utilities. He favored an eight-hour day "or less."

Shamokin, Pa., June 23.—Capt. J. W. Haas, a G. A. R. veteran who was mistaken for Lincoln's assassin and nearly lynched soon after Lincoln's death, died here today.

MIDNIGHT BALL IS CHIEF ATTRACTION

MIDNIGHT SUN FESTIVAL IN ALASKA METROPOLIS ENDED UP WITH AN EARTHQUAKE LASTING 50 SECONDS.

By Associated Press.

Fairbanks, Alaska, June 23.—Big crowds saw the midnight baseball game here last night, celebrating the Midnight Sun Festival. There was also an earthquake lasting fifty seconds, accompanied by a rumbling like thunder.

CONNECTICUT "DRYS" IN SESSION.

New Britain, Conn., June 23.—Delegates from all over Connecticut were present here today at the opening of the Prohibition party State convention. Tomorrow the convention will adopt a platform and select candidates for United States senator and for all the State officers to be voted for at the November election.

EAGLES FFLOCK TO HELENA.

Helena, Mont., June 23.—Dressed in the brightest holiday array, Helena today gave a hearty welcome to the hundreds of members of the Fraternal Order of Eagles who flocked here from every part of Montana for their annual State convention. The programme covers four days and is the most attractive ever prepared for a convention of the fraternity in this State. Prominent among those in charge of the entertainment of the visitors is Governor S. V. Stewart, who is a past president of the order. In addition to the business sessions there will be a big street parade, a night electrical pageant, a mammoth banquet, band concerts, receptions and a grand ball.

HIS LAST NAME.

"What is your last name?" the teacher of a new pupil. "Arthur, ma'am," replied the boy. "Arthur!" exclaimed the teacher. "What is your other name?" "Cooke," said the boy. "Then, Cooke is your last name, of course," said the teacher, looking at the boy with considerable severity. "No, m," replied the child respectfully. "My name was Cooke when I was born, but mother says they didn't name me 'Arthur' for 'most three names.'—Lippincott's.

From Wednesday's Daily.

IN THE LAST DITCH.

A desperate effort is being made to show to the world that the reported break between Villa and Carranza was either a misunderstanding of the real situation or that it has been patched up successfully.

Both Carranza and Villa are reported to have disclaimed the break, and the people to whose interest it is to minimize the affair point to the statements purporting to emanate from the chief and his erstwhile follower as proof that they are now in accord.

But one thing is very significant. Neither from Saltillo nor from Torreon is any news of importance being sent out, and the statement is made by the correspondents that a rigid censorship is now on at both places.

The commissioners from Carranza to Washington have refused to discuss their mission, save to state that Carranza will not accept the invitation of this country to enter the informal conferences, and their silence is ominous of what their mission really is.

When the correspondents of the Associated Press and of the great news papers cannot get out any news of importance it is certain that something is being suppressed. And the denials of the rupture between Villa and Carranza are too vague to be accepted as the real truth of the situation.

A general shake-up in the Carranza cabinet has followed the break, and Carranza himself confirms the reported dismissal of Angeles, who, the despatches say, "he considers responsible for the trouble between Carranza and Villa."

Reports to the effect that Villa will continue to fight his way at the head of the army into the City of Mexico, regardless of what action Carranza may take, indicate that Villa no longer considers himself bound by the former agreement (or any other) with the "supreme chief."

It is apparent that the despatches from Washington, announcing that Villa's choice of Angeles as provisional president was acceptable to the United States, have had some influence on Carranza, and it is more than probable that the mission of his emissaries is to make a desperate effort to induce the Washington administration not to throw him over for Villa.

At present all information which seeps from Torreon passes through the hands of Carranza's agents, and it is doubtless being colored to suit the occasion. On the other hand, the news from Saltillo comes straight from Carranza's headquarters—the news that is allowed to pass, that is—and of course, it would not be permitted to pass were it unfavorable to Carranza's pretensions.

Should Carranza really refuse to be drawn into the conferences, it is extremely probable that overtures will be made to Villa or to other prominent constitutionalists to induce them to enter the conferences on behalf of their followers.

The reasons which were stated to the Huerta delegates which should make their conferences with the Carranza delegates desirable included the advisability of averting a foreign war which might result from a continuance of hostilities. This is a pretty direct insinuation of what might occur should no agreement be reached for a speedy restoration of peace.

The Huerta delegates are also actuated by a desire to save Mexico from further spoliation, and their prompt agreement to the proposed conferences is an indication of their willingness to do all within their power to secure peace for their country.

Upon Carranza's willingness or unwillingness to confer with the Mexican delegates probably rests his future. Failure of his plans just now would spell inevitable defeat for him in the future.

INDIGENT CONSUMPTIVES.

A strong effort is being made to have the federal government establish hospitals for indigent strange; consumptives in the Southwest. It is known to every resident of this great section that annually many people come to the Southwest for relief from the dread disease, and that many of these people are without means or even relatives who could aid them.

For the sufferer from tuberculosis four things are necessary. Fresh air, care, rest and nourishment. Even the fresh air is not available to the indigent sufferer, who is compelled to live in a small room, usually without adequate ventilation. As to care, rest and nourishment, none of these can be obtained without money.

The idea has obtained for many years that in the climate of the Southwest the sufferer from tuberculosis will find relief, if not complete restoration to health. And many come here with the one idea that nothing else is necessary.

Some are able and willing to work for their living. Others are either unable or unwilling to accept any sort of employment, while at the same time they are unable to support themselves in the manner in which a consumptive should live.

Late methods of treatment have shown that even in the frigid North a cure from tuberculosis is possible when one follows the prescription of the physician, which includes abundance of fresh air, moderate exercise and liberal nourishment. It is not necessary to come to the Southwest in search of the fabled fountain of life; one can find it at home provided he has the means to follow the doctor's directions.

The coming of so many thousands of indigent consumptives to this section is a burden upon the people, and some means should be found of relieving them of this burden. This the senate and house bills now under consideration will do if passed.

The establishment of federal hospitals for the indigent sick would not only relieve the various states of the Southwest of the great burden of their support, or the cost of sending them back to their homes, but it would remove a dangerous source of

infection which threatens the various towns and cities where they congregate in search of health.

So strongly has this latter question affected some of the people that in many places consumptives cannot find a place to live, the boarding houses and hotels refusing them admission, and many of the towns passing ordinances refusing them permission to live within the jurisdiction of the town.

The states of the Southwest have endorsed the plan to establish government hospitals, as they realize that this would be a ready means of preventing the spread of infection, as well as assuming the physical care of these unfortunates who are unable to care for themselves.

The sufferer from tuberculosis who is not segregated from healthy people threatens them with infection with the dread disease, which the latest statistics show causes over 200,000 deaths per annum in the United States alone.

Very few employers want consumptives in their employ, and those who have families of their own do not want to expose them to infection by working alongside of consumptives.

A federal institution for the care of the tuberculosis patients could be made at least partly self-supporting, as there are many who have not yet reached the final stages of the disease, who are able to perform many kinds of work.

Our own congressman, Hon. John N. Garner, is a member of the committee of ninety-nine of the Southwestern Conference on Tuberculosis, which is making strenuous efforts to have the bills passed through congress, and we may rest assured that he will do all in his power to aid in this important work.

Broceda says Carranza won't accept the United States' invitation to informally enter the conferences at Niagara Falls. We imagine it was not expected that he would, and if Villa will only wipe off some of the bloodstains, we may flirt with him for a while.

A cave-in occurred in Brooklyn, half a city sidewalk dropping into the subway, killing one man and injuring six others. And yet there are people who prefer New York to Laredo!

It was a quiet day in shipping circles. One steamer went ashore on the rocks and two others collided. It must be hard to have to endure such deadly monotony.

Americans told the Olympic games committee that baseball was played in England, whereupon the British delegate had such a fit that the statement was withdrawn. Perhaps what they play over there is not really baseball, after all.

LITTLE LOCALS

—Some great accounts of the troubles in Mexico are being published these days by the American and Mexican newspapers (with apologies for calling the latter by such names). The correspondents of the American newspapers are sending out what they believe to be correct views on the situation and are as optimistic as it is possible to be, while on the other hand the Mexican papers are distorting and exaggerating matters to suit their fancy.

GIVEN A SUSPENDED SENTENCE ASSUMED CHARGE THIS MORNING

For Theft From the Person, and When Released Was Deported by Immigration Authorities.

Newly-Appointed Collector of Customs of Nuevo Laredo Was Inducted Into Office Today.

Given a suspended sentence following a verdict of the jury assessing his punishment at three years in the penitentiary on a charge of theft from the person, to which he had plead guilty, and then when he was liberated by the sheriff being seized and deported by the United States Immigration authorities, was the predicament in which Alberto Jasso, a Mexican, found himself yesterday afternoon, but now he is on Mexican soil, with the admonition not to try to return to the United States under penalty of severe punishment.

It appears that Jasso had been wanted in Kansas City for some of these but officers there could not get sufficient evidence to convict him Villareal, when in fact the appointment was made by General Carranza, the constitutionalist chief. The new collector can now be found at his office in the northeast corner opposite the ruins of the Concordia Theatre building, where is also maintained the military headquarters and telegraph office.

ANGELES AS PRESIDENT.

Gen. Felipe Angeles is provisional president of Mexico. At least, so says Pancho Villa, and it looks as if this modern Warwick had by far the best of the argument when it comes to choosing presidents.

Felipe Angeles is a real soldier, a graduate of the Chapultepec military academy, and considered an authority on artillery practice and strategy. It is claimed that he is the real brain of the campaigns in which Villa has been successful, and that his were the plans which resulted in the capture of Torreon.

Politically, he is not so well known in Mexico as many others, for the reason that he has served his country abroad for several years. It is claimed that he has never had the entire confidence of his superiors, beginning with Gen. Porfirio Diaz, who sent him abroad, to Huerta, who refused to give him the command he wanted, and who was directly responsible for Angeles' defection to the Carrancistas.

As a soldier who repeatedly was sent abroad to get him away from entangling alliances, he has not had opportunities for ingratiating himself with the common people, nor even with the army, but it is said that he is very popular with Villa's men, particularly since the capture of Torreon. As to his abilities as a statesman, nothing is known. His prompt acceptance of Madero as president led many to believe that he was all along a rebel sympathizer, but it proved at least that he was a politician of a type very common in Mexico—one who knew which side his bread was buttered on.

There are undoubtedly many Mexicans who would be far preferable to Angeles as president, or even as commander-in-chief of the Mexican armies. That he would be a more figurehead in the Villa combine is not at all doubtful. Villa is not given to advancing others over himself, as was proved by his choice of Angeles to be his lieutenant instead of his superior, although it is certain that Angeles is far the better soldier of the two—perhaps the most able now fighting on the rebel side.

But if his ambition will be served by being nominally president, while deferring to Villa in all matters of government, civil and military, it is likely that he will succeed insofar as Villa has control. For several days it has been surmised that Angeles would be put up by Villa as provisional president, following the defection of Villa from the ranks of Carranza's followers. This was evident to Carranza, as is shown by his immediate deposing of Angeles from his position as minister of war and commander of the artillery.

Carranza has lost more than a soldier in the rupture with Villa. The latter has shown himself to be a shrewd politician, who knows the psychological moment when it arrives and is ready and able to grasp it.

His appointment of Angeles as provisional president, even though it be in name only, has made a friend of the former federal officer, and by naming Angeles, Villa has not lost his grasp on the helm of the rebel bark.

And further, Villa is shrewd enough to see that by causing the defection of Angeles he has struck a heavy blow at the pretensions of Carranza, who sees himself at a critical moment abandoned by his two most important military leaders.

Oregon caused the rupture with Maytorena, which will leave Carranza without the support of the Sonorans at a desperate moment. Gonzales has no political backing of any value which he can control, and there is no question of Natera, who has shown himself miserably incompetent, as well as a liar.

The rope of sand has begun to disintegrate.

THE PASTORIZA PLAN.

Perhaps no city in the United States has so satisfactory a plan of taxation as Houston, although it is stated that there are a few "kickers" who are threatening an appeal to the courts, despite the satisfaction of the rest of the population with the present plan.

The plan was originated by J. J. Pastoriza, the tax commissioner of Houston, who was re-elected by an overwhelming vote because of the popularity of the plan.

Briefly, it assesses no personal taxes, and it assesses land at 70 per cent of its value, and building improvements and merchants' stocks at 25 per cent of their value.

It is perhaps the nearest approach to the single tax that there is in operation anywhere. Basing the taxable values on the land itself, a man is not penalized for the improvements he makes, and the poor man is taxed

in a more equitable manner than anywhere else.

It is a fact that under the average tax system the poor man pays the greater part of the taxes, and also pays perhaps more than ten times his proper proportion of taxes.

Under the personal property tax there is no way for a poor man to conceal the greater part of his personal property as the rich man may do. He has no bank account which he makes false statements about, and if he has a horse or a cow he pays taxes on them, while the rich man frequently escapes payment on an automobile or two, to say nothing of other valuable personal property.

Again, a poor man who desires to escape the payment of a tax beyond his fair proportion is compelled to commit perjury or to pay the full amount. A rich man escapes the payment of taxes on his bank accounts, his loans and other business transactions by merely forgetting to declare them to the assessor.

Under the Pastoriza plan, all land is taxed according to its assessed value, 70 per cent of its real value being accepted as its assessable value. The improvements on the land are assessed at 25 per cent of their value, thus making it possible for a man to improve his property without paying enormously for the privilege.

This works two ways: If a man is holding his land for a rise in price, he is assessed 70 per cent of the value of that land, and he gets no income from the land. If he decided to build he is assessed only 25 per cent of the value of the improvements he puts on the land.

Merchants' stocks are assessed at only 25 per cent of their value, and thus an inducement is offered to build up trade without a prohibitory tax on the stock.

The poor man who has neither real estate nor a stock in trade has no personal property taxes to pay. And this, instead of operating to induce a man to remain without real estate, really induces him to save and secure a home. He is not taxed for something which merely enables him to live and brings him in no income.

The result of the operation of the Pastoriza system is that Houston is rapidly becoming one of the greatest cities in the Southwest. The system draws enterprises to the city, and the enterprises in turn are able to bring the best class of labor for the reason that the working men feel that they are not taxed for the privilege of living.

And the plan is already increasing the land values of the city as well as encouraging property owners to improve their properties. The man who realizes that he has to pay taxes on the assessed valuation of his land, whether he uses it or not, and that his improvements will not add materially to his assessment, will naturally want to build and get all that he can out of his property in rents.

The president asked the resignation of a negro recorder of deeds in the District of Columbia and Southern Democrats are alarmed over the report that another negro will be appointed as successor. It would be a shame, with so many Texas Democrats willing to accept the appointment.

Premier Asquith received a delegation of working women and told them that he agreed that the franchise should be granted to women, should be granted on the same terms as it is to the men. That beats even the Illinois woman suffrage.

During sham battles in the air in Austria, a biplane collided with a dirigible balloon and both were destroyed, with a resultant loss of nine lives. Some day people will learn that sham battles can be made too realistic.

Zapata says he sees no reason why he should not aspire to the presidency of Mexico. Carranza says he is really provisional president. Villa proclaims Angeles as president and the mediators and the Mexican delegates fail to agree on who should be chosen. Looks like a chance for Teddy, after all.

Carranza deposed Angeles and Villa proclaimed his artillery chief provisional president. Reminds one of the Irishman who was fired and returned to his old job, saying that on the inside the letter said he was discharged and on the outside it said: "Return to Baldwin locomotive works after five days."

Envoys Passed Through Here

Representatives of General Carranza to Washington Reached Laredo on Saturday Evening.

Fernando Iglesias Calderon, Leopoldo Espinoza and Florencio Breceda, who are representatives of General Venustiano Carranza and are en route Washington, arrived here Saturday night from Monterey and left yesterday morning on their way to the national capital.

While these delegates refused to fix the object of their mission to Washington at this time, it is learned that they are bearing important information from General Carranza for President Wilson.

Calderon is the man whom Carranza had at first selected as one of his delegates to the Niagara Falls conference, but later it was decided not to send delegates to represent the constitutionalists at the conference.

WAS OLD SOLDIER AND RANGER

William McMahon, Who Died at Home Saturday, Did Valuable Service in Pioneer Days.

Another one of those grand old men who formed the bulwark of the frontier in the days of long ago, and who later when the call to arms to protect his beloved southland against the invading army summoned him to test the mettle of which he was made, and who fought valiantly for the defense of the Stars and Bars, now sleeps the sleep that knows no awakening. No more will the campaign of battle in this transitory vale call the old hero forth to fight sanguinary conflicts, no more will he suffer the hardships of this life, but like the vast majority who have crossed the unknown river and now keep silent bivouac on the mystic shores beyond the comprehension of the living, will he there be with his comrades forevermore.

On Saturday forenoon William McMahon, a native of Ireland, aged 75 years, and who for the past 36 years had made his home in and about Laredo, passed peacefully away at his home in this city, 1301 San Bernardo Avenue. He had been in impaired health for some years past and gradually became more enfeebled. Deceased came to this country with his parents when quite a youth and for a number of years made his home in Corpus Christi, where for a time he followed the vocation of a printer. When the call to arms sounded in 1861 the subject of this sketch joined Colonel Ford's regiment of Texas volunteers and did valuable service in the Confederate army, being a member of Ford's command when the battle of Las Palmas, the last of the war, took place near Brownsville. This battle took place one month after peace had been declared (but the news had not yet reached the extreme southern part of Texas) and the regiment of which McMahon was then a member defeated and routed the Union forces. After the war for a number of years McMahon did ranger service along the Texas frontier and was known as a fearless officer.

During his residence in Laredo deceased was well and favorably known and engaged in various vocations to earn an honest livelihood, always retaining a high regard for his fellowmen in his pursuits for a livelihood.

Surviving him are two sisters, Mrs. Laura Sprague and Mrs. M. J. Walters, and two brothers, Jerry and John McMahon, all of this city. On Sunday morning the funeral took place from the late home to the Catholic cemetery, where interment was made. To his relatives go the sympathy of many friends in their bereavement.

SAYS CONDITIONS ARE IMPROVING

E. J. Wiggins Says That at This Time Americans and Foreigners Are Considered Safe in Mexico.

E. J. Wiggins, who is in the life insurance business in Monterey, arrived here yesterday on a visit to his family, who have been in Laredo since early in June, when they were called here on account of the serious illness and death of Mrs. O. P. Reid. From here Mr. Wiggins and family will probably go to Honduras on a short visit to relatives and then visit Mr. Wiggins' old home in Philadelphia before returning to Mexico.

Regarding conditions in the republic to the south at this time Mr. Wiggins take an optimistic view of the situation. He says that at this time material improvement is noticeable on every hand, that business is resuming in many places and that Americans and other foreigners in Monterey at least, consider themselves perfectly safe. He has great faith in the future of Mexico and says that many of those who fled when the United States-Huerta controversy was in its incipency are now fast returning and resuming their vocations and that as a result thereof normal business conditions will soon be restored.

CALOMEL A GREAT DANGER TO MANY.

Has Bad Effect on Some—Dodson's Liver Tone Takes Its Place and is Perfectly Harmless.

If you will inquire at The City Drug Co. or at Windrow Drug Co., you will find that Dodson's Liver Tone is guaranteed to be a safe, reliable remedy to take the place of calomel and a harmless liver stimulant having no bad after-effects. Indeed, any of those firms will refund purchase price (50c) without question if you are in any way dissatisfied with this vegetable liquid.

It is very unwise to take calomel, even dangerous, as many people suffer from the poison afterwards, even though they may appear at first to be temporarily relieved. On the other hand, Dodson's Liver Tone works easily and naturally (really assisting nature) with no pain nor gripe and correcting all bilious conditions and ills of constipation, clearing away the sick headache and the coated tongue, brightening up the dulled brain and strengthening the weakened body at the same time that it removes collected waste from the overburdened system.

Those who have tried Dodson's Liver Tone have found that it made them healthier and happier. A test may prove of great benefit to you right now.

WILL HOLD APPRAISEMENT COURT

Member of General Board of Appraisers Service Will be in Laredo on Wednesday.

Proceedings before a member of the general board of appraisement of the customs service will be held in this city on Wednesday, the session to be presided over by a member of the board who is now en route here from New York. At the meeting protests against valuations, etc., made by the customs officials, will be heard and settled. At the proceedings to be held in this city the appraisement values placed on some cattle and mules over a year ago, which were protested, will come up for consideration.

The general board of appraisers consists of nine members and they have their headquarters in New York. At this time a member of the board is coming to Texas to dispose of matters which have been in abeyance some time, and after disposing of the business here he will go to Brownsville and perhaps other portions of the state before returning to his headquarters in New York.

Burglar Was Captured En Route.

Last evening Thomas Perez, a bell boy at the St. Paul hotel, according to the story related to City Marshal Brennan, entered the apartments of Mrs. C. Graham, of Poteet, Texas, who is stopping there, and burglarized the room, taking therefrom a gold watch and a small sum of money. After committing the burglary Perez hiked for the depot and caught the northbound "Boll Weevil." The city marshal was notified as soon as the burglary was discovered and the officers got busy, resulting in Perez being taken a prisoner as he alighted from the train at Cotulla. He will be brought back to Laredo today. At the time that the burglary took place the hotel guests were all on the lower floor, while Mrs. Graham's apartments were on the second floor.

From Tuesday's Daily.

A FALLEN IDOL.

For months past the glorification of Pancho Villa, the sole occupation of the Carrancista sheet published in Laredo. He was a "glorious patriot," the "hope of Mexico," the "ever victorious leader," etc., etc.

Pages of misspelled and misprinted eulogy were wasted in telling the proponents of rebellion and misrule what an angel of goodness the much maligned (7) bandit chief was, and how upon his active labors depended the future of Mexico.

When the story of the break between Villa and Carranza was first published the same sheet hastened to inform the public that there was not a word of truth in it, and that Villa was, as ever, "yours most devotedly," when addressing the Supreme Chief.

When the fact of the break could no longer be concealed by mendacity, then the vials of wrath of the newspaper hireling were opened and a torrent of vituperation was poured forth upon the head of the man who but a few days before was "the saviour of the nation," the new Moses who was to lead the people of Mexico out of the land of bondage into the wilderness of political intrigue.

In a late issue the same writer does not hesitate to impugn the motives of the United States, to whom he was so delightfully subservient when he believed that the kingdoms of the earth which were pointed out by the Deceiver from the pinnacle of the temple were to be delivered "without money and without price" to the rebel leader.

He asserts that there is a "possibility" that the United States, which has encountered the iron patriotism of the Supreme Chief, Señor Carranza, may decide to aid Villa, since he has fewer patriotic scruples and will constitute himself a mannikin of the American government.

He says that the press of El Paso, "both for the sake of adjusting itself to the policy of President Wilson and for commercial interest, began to make of Villa a hero of legend."

The very same paper which has had columns of eulogium of the bandit chief attacks him as a brute, as having a character that is savage and inhuman, as one whose triumph have made him arrogant, have aroused in him a senseless ambition and have brushed away all scruples.

And the final word in this article is: "But if President Wilson, because of diplomatic pressure, ends with abandoning all power in Mexico in the hands of Francisco Villa, a person morally incapacitated for realizing the great program of justice of the revolution, his motto of 'Morality, not Expediency' will have moved down the slope of the most lamentable disillusion, because President Wilson will have taken the power from the hands of one traitor, usurper and assassin to place it in the hands of another traitor, usurper and assassin."

This impudent writer of a foreign nation residing within the United States dares to make such statements in his article as the following: "The honorable intention of President Wilson is complicated with the arrogance of a people who are accustomed to do as they please with the lesser Latin-Americans included between the Rio Bravo and the Panama Canal... When Vera Cruz was occupied, Secretary Bryan received a lesson in patriotism from Señor Carranza. Bryan promised to Carranza that he remain compliant with the insult, and guard silence, criminal silence, because it would have been that of a traitor to his country, and Carranza caused to be published the proposition of Bryan."

It is safe to say that the people of the United States will resent this attempt to throw the blame for every mishap to the rebel cause on the shoulders of the American president, congress or people.

A PEACE ADVOCATE.

One of the most noted European advocates of world peace, Baroness Bertha von Suttner, is dead, at the ripe age of over 70 years. Baroness von Suttner is believed to have been responsible for the offer of the peace prize by Dr. Alfred Nobel, and she was a member of the advisory council of the Carnegie Peace Foundation.

Betrothed when a girl to a German nobleman, she was given a horror of war by her lover being killed in battle. During the remainder of her life, although the daughter of one of the noted German field marshals, she was an advocate of universal peace, and but a short time ago she spent several months in the United States, where she delivered lectures to promote the cause of peace.

In 1899 Baroness von Suttner wrote a book entitled "Die Waffen Nieder"—"Lay Down Your Arms"—and so strong was the influence of the book that it became the inspiration of the International Peace Bureau, the Baroness becoming the editor of the magazine of the society with the same title as her novel.

In martial Germany the courage to devote oneself to the peace propaganda showed Baroness von Suttner to be possessed of more than the spirit of her ancestors and she lived to see some of the greatest minds of Europe boldly advocating the principles to which she had been devoted since girlhood.

By some the principle of universal peace has been ridiculed as a visionary dream, yet the work of the peace advocates has resulted in averting many a war which might have stained the pages of history with unnecessary blood.

The outcome of the Spanish-American war was certain from the very start, and its fearful sacrifices might have been extended over many months had it not been for the peace propaganda, of which Baroness von Suttner was a prominent member.

The peace advocates were successful in urging Theodore Roosevelt to offer his good offices at the time of the Russo-Japanese war, which of-

fices resulted in putting an end to the sanguinary conflict.

That the peace advocates have been very potent in preventing hostilities between this country and Mexico no one can deny. Had it not been for their activities, a different story might have been told when the American flag was hoisted at Tampico and even now they are an effective force in influencing the holding back of hostilities.

Future generations will read with wonder not unmixed with horror, of the sanguinary battles by which nations sought to settle their difficulties. Our descendants will be proud of the advanced thinkers who first advocated peaceful methods than they will of the heroes of bloody battlefields.

And among the chief exponents of universal peace will shine the name of Bertha von Suttner. No matter what caused her to first see the wrongs and the wickedness of war, she was ever a firm advocate of gentler methods of settling difficulties between the nations.

For many years past we have, as nations and even communities, for hidden the resort to arms of the individual for the purpose of composing his differences with other individuals. We have taught that the courts provided a proper way of settling difficulties, and we have frowned upon fighting as between persons.

But we have continued to practice the same methods as our cave-dwelling ancestors used, at least so far as nations are concerned. And it may be a long time before we learn the inconsistency of our actions. But when the dawn of universal peace does come—as come it will eventually—it will be by the efforts of the gentle souls who, like Bertha von Suttner, have given their best years for the coming of the era of "peace on earth, good-will to men."

The latest move in the mediation proceedings is to get the representatives of the two factions to agree to informal meetings for the purpose of trying to put the country. The Huerta delegates promptly agreed, but just what Carranza's representatives will do is conjectural.

A charge that American bankers were unduly influencing the United States policy in Nicaragua will not be investigated. But would it not be better to have the question settled than to have the charge remain unrefuted?

The Mississippi law permitting but one gallon of liquor at a time to be shipped to an individual in dry territory would seem to be just. Why, even in Texas the average man could not drink more than a gallon at a time.

While the rebels insist upon the validity of their money, it is noticed that they are not receiving it in payment of taxes on foreigners, but demand the gold. Why the double standard?

Mr. Wilson favors selling the two discarded battleships to Greece provided they are not to be used in war. It is not known what names he will insist upon at the new christening, but it is understood that "Piffle" is barred.

SHERIFF'S SALE.

Notice is hereby given that by virtue of an order of sale issued out of the District Court of Webb County, Texas, on the 12th day of June, 1914, and to me directed and delivered in a certain case therein mentioned, wherein the City of Laredo is plaintiff and Manuel Villareal is defendant and wherein said city recovered a judgment against the said Manuel Villareal on the 12th day of November, 1913, for the sum of Three Hundred and Forty-seven and 33/100 dollars, with a foreclosure of a tax lien on the following described property, viz: Lots numbers four (4) and five (5) in Block number sixty-nine (69) in the Western Division of the City of Laredo, Webb County, Texas.

A NEW COLLECTOR OF CUSTOMS

Former Laredo Printer, Brother of Governor Villareal, Made Collector of Nuevo Laredo.

A new collector of customs for the port of Nuevo Laredo, a former Laredo young man, will assume charge of the duties of that office tomorrow, succeeding Manuel Cavazos Garcia. The new collector comes from New York City to take up the new office to which he has been appointed.

The newly-appointed officer referred to is Alfonso C. Villareal, brother of Governor Antonio L. Villareal of the state of Nuevo Leon, who arrived from New York City yesterday to accept the position to which he was appointed by his brother.

Mr. Villareal, who formerly worked in The Times office, left Laredo about twelve years ago for New York City. He was a printer by trade and after leaving here engaged in the "art preservative of all arts" in the metropolis and won success. Recently he was selected as collector of customs of the port of Nuevo Laredo and it is to accept the lucrative position that he has come back to his old stamping grounds. Mr. Villareal was a pleasant caller at the Times office this morning.

Card of Thanks.

To all those kind friends who assisted us during our sad hours, assisted by the death and funeral of our daughter and sister, and who contributed beautiful floral offerings, we wish to return our sincere thanks and appreciation and to assure them that their kindness will ever be remembered.

VEGETABLES ON LOCAL MARKET

There Are Good Supplies of Summer Vegetables Now on Hand and Selling at Low Prices.

The local vegetable market has good supplies of produce from gardens about Laredo. As one walks about the city market or the south side of the city plaza he can see numerous stands or wagons laden with large supplies of Laredo grown vegetables, such as tomatoes, cucumbers, eggplants, pumpkins, cantaloupes, watermelons, etc.

The vendors are heard acclaiming that these vegetables are selling at a low price, and when one inquires surprise is manifest at the small price asked—roasting ears going at a cent each, tomatoes at six cents per pound, with comparatively low prices for other vegetables on hand. Cantaloupes and watermelons are also on the market, but according to the quality of the product the price asked is still high.

Watermelons are not as good just yet to what they will be in a few more weeks, this being due to hasty maturity as a result of the recent heavy rains in this section.

PLEAD GUILTY AND WAS FINED

Criminal Libel Suit in District Court Came to Sudden Termination Yesterday Afternoon.

In the district court yesterday afternoon the case of the State of Texas vs. Abraham S. Dahrooge, charged by indictment with criminal libel as a result of an article he wrote in which he referred to Geo. S. Courcy in a libelous manner, came suddenly to a termination. When court met yesterday afternoon the work of securing a jury was on and Dahrooge, through his attorneys, entered a plea of guilty, thus ending the case. His punishment was assessed at a fine of \$100 and costs, which were promptly paid.

The case had been called at the morning session of the court, when a motion to quash the indictment, made by attorneys for the defendant, was overruled by Judge Mullally. The work of securing a jury was then begun and court adjourned until the afternoon. It was just after reconvening of court that Dahrooge entered the plea of guilty and thus terminated the entire proceedings.

Both men involved are Syrians. Dahrooge conducting a big curio store in San Antonio and Courcy being interpreter in the immigration department in this city. The article which caused the action by Courcy appeared in a Syrian paper, the name of which, translated, is "The Mirror of the West."

ONION GROWERS MUST REPORT

New Law Requires Them to Make Report on Amount of Water Used, Acreage, Etc., to Austin.

Onion growers would do well to take cognizance of the fact that now that they have completed the shipping of their product they must comply with a little aftermath reporting on what was required in the growing of their crops.

Onion growers are required by a new statute passed by the Thirty-third legislature of the state of Texas to report to the state board of water engineers at Austin the amount of water pumped during the season, the acreage and general equipment of plants, etc. This report must reach Austin by the last day of June. The grower failing to comply is subject to a fine of \$100 or six months in jail.

A regular form is supplied for this report and should be accompanied by a blueprint map of the land and plant.

Entertained for Bride-to-Be.

On Friday afternoon at her home Miss Jennie Devine delightfully entertained a few invited guests at a card party given complimentary to Miss Pearl Winch, one of Laredo's sweetest and most popular young ladies who, on tomorrow, will become the bride of Dr. Robert McCulloch of Corpus Christi. For the occasion the room in which the game of "500" was played was decorated in a most dainty and esthetic manner. A three-course luncheon was served, the table decorations being arranged in a most appropriate and beautiful manner. In the center of the table was an artificial lake, upon the surface of which was a miniature boat carrying a bride and groom, while the place cards consisted of Cupid designs. During the luncheon the popular homeward was presented with a half-dozen silver spoons, a gift from the hostess.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. The mucous lining of the Eustachian Tube. When this tube is inflamed you have a running, itching, or watery ear, and when it is cured, the hearing will be restored. Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, the hearing will be destroyed forever. From Thursday's Daily.
AMERICAN TOADYISM.

A press despatch says that President Wilson was "cussed out" by an irate golf player whose head the president's ball narrowly missed but who apologized when he "cooled off enough to recognize the president's identity."

There is something disgusting about this twaddle of toadyism when applied to the chief executive of the nation, and it would not have been tolerated by some of our presidents of an earlier generation.

There is no reason why the golfer should have apologized to Mr. Wilson any more than he would to any other man, simply because he is the president.

When a high official of the country steps out of his office and enters into sport—or anything else—he becomes one of the plain people. At least, in theory he should. There is no "divinity that doth hedge about" a president aside from his official functions.

But there is a tendency in these modern times to ape the aristocracy of the Old World and to place our president—even our lesser officials—on a high level of superiority to which they are not entitled by our democratic institutions.

As president, it is right and proper that Mr. Wilson should be protected from physical harm, because there could be only one thing which could place him in peril of bodily harm and that is his exalted office.

In imitation of foreign courts, there is too much said in the public prints of the private affairs of the president and his family. It has reached such an extreme, that some of the papers publish almost daily some bit of "court gossip" concerning the members of the president's family which cannot but be distasteful to any man of sense.

Such adulation in the public prints cannot appeal to anything but the personal vanity of the president, and it is believed that he is not given to indulgence in this respect, but is, as a whole, a sane American like the majority of other Americans.

But adulation would seem to have reached its limit when a man, justly offended because of a piece of carelessness on the part of Mr. Wilson, apologizes to him for something which would not have demanded an apology to anyone else.

A man may not be justified in using profanity to anyone. Personally we believe there are few cases when a man would be justified in using abusive language to anyone, although at times the provocation is very great. But if the occasion would justify one in "cussing" a mere plain citizen, the fact that the provocation was given by the president would not, in our mind, warrant any further apology than would have been demanded toward anyone.

Mr. Wilson is acquainted with the ethics of golf—none better. And according to those who play the ancient game, there are frequent provocations to profanity while knocking the evasive guttapercha sphere over the face of the landscape. It is understood that one of these is when one is struck by a ball through the lack of precaution on the part of the person driving it.

Certainly it might cause one to swear, at least mildly, were he to narrowly escape being hit by a golf ball, which has for the time being the force and impetus of a three-inch projectile. And the fact that the ball was driven by the president would not make the blow less severe.

There is no law of less majesty in our statutes. And if Mr. Wilson can stand the amount of daily abuse which is hurled at him through the public prints, a little "cussing out" by a fellow golf player should not cause him any worry. And it should not cause the man indulging in the vent to his outraged feelings to feel that he was guilty of high treason.

HIS FEMINISM BOGY.

"Marse" Henry Watterson, the editor who of all living editors is the exponent of the personal in his writings, is taking a walling at "Gen." Rosalie Jones, the suffragist who is now making a tour of the South, and he demonstrates the fact that, no matter how much he has progressed along other lines, he is still reactionary when it comes to the woman question.

Col. Watterson claims to see in the movement for woman suffrage the peril of "feminism," which he calls "the genesis and the terminal of the agitation responsible for the prevailing unrest of women." He says:

"Feminism, among the more advanced, avows itself the enemy of a man-made world and a man-written Bible, and all existing conditions, including marriage and the home; it proposes the abolition of sex and the recreation of woman in the barbaric image of man, each woman to choose the father of her child, and as many fathers as she cares to have, polygamy and the polygamous instinct to be shifted from masculine to feminine initiation."

If "Marse" Henry believes all this—and it is not at all certain that he does not—it is evidence that he is as ignorant of the tendency of the suffrage movement as is any African savage. The hysterical ravings of some of the feminists are by him, apparently, received as the real aim of the rest of advanced womankind.

The bulk of the women devoted to the enfranchisement of their sex are not only opposed to "polygamy," among women—polyandry would be the correct term, "Marse" Henry—but they are determined to break up the real polygamy from which they have suffered for centuries, and which has never been completely wiped out.

That a woman seeks the right to a voice in public affairs does not mean that she is opposed to the institution of the home; on the contrary, it indicates that she wants to do her best for the home, and she feels that she should have an equal voice in making the laws that govern that home.

Col. Watterson indulges in some of the same old twaddle that has been

the refuge of the antagonists of woman suffrage for years when he tells her that she is "a superior being; that she was created to civilize and humanize man; that without her we should drop into savagery; that without the ballot she has achieved the crown of glory God designed for her when he made her the moral light of the universe," etc.

Right here is where the illogical attitude of the anti-suffragists comes in. Woman was made to redeem and civilize the world, therefore she has no right to play her part in the redemption and civilization because it would "unsex" her.

The main reason for woman desiring the ballot is that she has been unfairly treated by the same men who have "placed her on a pedestal," as some of them are so fond of stating. The laws which have been made exclusively by men have been for centuries in favor of men to the disadvantage of women.

The very churches which have received the devotion of the women have so made their laws as to exclude women from any participation in the government of those bodies. But a few days ago one of the church organizations went on record as opposed to woman suffrage, while another refused to permit women to become lay delegates to make the laws for the church.

No doubt politics is no place for women; we have the word of the politicians for that, and no one should know better than those who have made politics an evil and a loss. But many other things have been reformed of late years, no doubt, politics could also be reformed so that women would not be unnecessarily defiled by associating with those who control politics.

In Chicago there is a district called "Little Italy." The character of the inhabitants may be judged when one learns that 125 murders have been committed there in the past three and one-half years. It is such ulcer spots that infest the body politic of all large cities where the inhabitants include a big majority of ignorant European immigrants.

Charles Moyer was again breeding trouble, this time in Butte, Montana, where he was shot at by two men as he left the union hall where the strike was discussed. Sooner or later he will get "his," and then a certain class of workmen will mourn him as a "martyr."

The federals in the vicinity of Vera Cruz are reported to be sniping "for the purpose of forcing intervention." At least that is the meaning attached to their acts in Washington. More likely, just plain, "cussedness" and mean mezzal.

A Mississippi man died from a hunger strike in jail, where he was under a ten-year sentence. Probably he knew something about Mississippi prisons, and preferred to take his chances in another world.

The last year's cotton crop was worth over a billion dollars—about the same amount as it cost to run the country. And Texas produced nearly one-third of the crop. Who says cotton doesn't pay?

WANT TRAFFIC OVER THE BRIDGE

Laredo Chamber of Commerce Asks That the International Bridge be Reopened.

A movement has been launched by the Laredo Chamber of Commerce for the re-opening of freight and passenger traffic over the international railway bridges. As a result of the action of the Board of Directors of the Chamber at their meeting yesterday telegrams signed by Dr. Charles F. Kenney as president and a number of Laredo's largest shippers were sent to the Interstate Commerce Commission at Washington, D. C. and to the Railroad Commission of Texas at Austin, asking that E. N. Brown, president of the National Railway of Mexico, be compelled to allow shipping to and from Laredo over the international railway bridge.

On the Mexican side freight and passenger traffic has been resumed between Nuevo Laredo and Saltillo, and local shippers have been subjected to great inconvenience in moving freight across the river by wagon. The business of some of the local brokers has also been seriously injured through their inability to ship heavy freight from Mexico to American points, where the character of the freight was such as would not stand the expense of reloading and hauling.

The Mexican territory from Nuevo Laredo to Saltillo is in the hands of the Constitutionalists and it is contended that traffic is given complete protection. The Mexican railway is prepared, it is understood, to assume full responsibility for every car delivered from the American side.

Local business houses are complaining against the heavy losses sustained from the shutting off of international traffic and it is hoped that an order may be obtained through the Interstate Commerce Commission or the Railroad Commission of Texas for the re-opening of the bridge.

In reply to the telegram sent yesterday the Chamber of Commerce this forenoon received the following message:

Austin, Tex., June 25.
Chamber of Commerce.

Laredo, Texas. We are taking matter up by wire with Brown urging correction of situation.

Phillips Clover Wedding.

A pretty home wedding was solemnized at the home of Mr. and Mrs. W. C. Clover, 613 Houston street, in this city on Wednesday at 5 p. m., when Rev. Dunn of the Methodist church performed the ceremony uniting their daughter, Miss Berta Teodora Barbosa, and Mr. Lucius Elmer Phillips as man and wife. The parlor of the Clover home, in which the ceremony took place, was beautifully decorated for the occasion, the color scheme being white and pink. To the melodies of Mendelssohn's wedding march played by Miss Pilar Viscaya on the piano the beautiful bride entered the parlor on the arm of her father, Mr. W. C. Clover, being accompanied by her maid of honor, Miss Sofia Salinas, and Mr. R. M. Johnston. Here they were met by the groom and his best man, Mr. Patricio Clover, brother of the bride. The bride was given away by her father. Following the ceremony music was furnished by an orchestra of ten pieces, which occupied a place in an adjoining room. The bride was becomingly gowned in a costume of white crepe de chine and lace, with veil and orange blossoms. Following the wedding ceremony refreshments of cake and cream were served and dancing began and continued until 7 o'clock, when, amidst a shower of rice, the happy couple repaired to the railway station and took the evening train for a honeymoon trip to various parts of the state. The groom is a steel worker in the employ of the Cannel Coal Co. at Dolores and is well and favorably known, while his winsome bride is the daughter of Mr. and Mrs. W. C. Clover and a general favorite and for several years was teacher of the county school at Dolores. The marriage ceremony was witnessed by a number of friends of the contracting parties. To Mr. and Mrs. Phillips go the best wishes of many friends for a long and happy wedded life.

COULD SCARCELY WALK ABOUT

And For Three Summers Mrs. Vincent Was Unable to Attend to Any of Her Housework.

Pleasant Hill, N. C.—"I suffered for three summers," writes Mrs. Walter Vincent, of this town, "and the third and last time, was my worst.

I had dreadful nervous headaches and prostration, and was scarcely able to walk about. Could not do any of my housework.

I also had dreadful pains in my back and sides and when one of those weak, sinking spells would come on me, I would have to give up and lie down, until it wore off.

I was certainly in a dreadful state of health, when I finally decided to try Cardui, the woman's tonic, and I firmly

believe I would have died if I hadn't taken it.

After I began taking Cardui, I was greatly helped, and all three bottles relieved me entirely.

I fattened up, and grew so much stronger in three months, I felt like another person altogether."

Cardui is purely vegetable and gentle-acting. Its ingredients have a mild, tonic effect, on the womanly constitution.

Cardui makes for increased strength, improves the appetite, tones up the nervous system, and helps to make pale, sallow cheeks, fresh and rosy.

Cardui has helped more than a million weak women, during the past 50 years. It will surely do for you, what it has done for them. Try Cardui today.

MODERN ABSTRACTING
Having completed a new and modern Abstract plant of Webb County, we are ready to take orders for abstracts and solicit your business in that line.
Our abstracts will conform to the usual form of complete copies of the records, except such deeds of trust or other records as have been properly released, which will be given in short form. District Court and Probate Court records will be charged for by the page of single space typewriting at the rate charged per transfer. All tax suits that have been dismissed or otherwise disposed of before judgment, will be eliminated from the abstract, thus lessening the cost to you.
Our charges are FIFTY CENTS PER TRANSFER—just half what you have been paying, to say nothing of the probable saving by eliminating useless matter heretofore included in abstracts.
Paying for abstracts is merely another form of paying taxes. Just as you have to pay taxes before selling land, so you now, more and more, have to give abstracts with each deed. Therefore if we can save you 50% in this item of your tax bill, patronize us.
We will make special prices on large orders or memorandum abstracts.

"There's zest and encouragement in every pipeful of Tuxedo. The sweetest, most soothing smoke I know."

Tobacco That is Good For Your Nerves

TUXEDO actually soothes the nerves. It is just mild enough to keep your nervous system in poise, your muscles in tone. Unlike other tobaccos, Tuxedo burns cool and slow. There cannot be a speck of irritation in a pound of Tuxedo.

Great singers smoke Tuxedo just before a performance. Public speakers testify as to its soothing influence. Doctors recommend it to smokers whose throats are delicate.

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

The secret of its superiority is the unique "Tuxedo Process" by which all the unpleasant features are eliminated from tobacco.

Another reason is that Tuxedo is made from the best tobacco grown—the choicest, mildest, mellowest leaves of the highest grade Burley tobacco.

Tuxedo is widely imitated—but no other manufacturer has succeeded in making a tobacco as good as Tuxedo.

ASTONISHED THE BISHOP.

Doctor Gore, the bishop of Oxford, is endowed with a keen sense of humor, and is rather fond of telling the story of how, at one diocesan examination, one of the questions ran thus: "Name the three evils mentioned in the Litany, from which the church prays to be delivered." Judge of the examiner's astonishment when, instead of the answer, "False doctrine, heresy and schism," he read the words, "Bishops, priests and deacons."

Shift Your Gears!

If I were going to attempt a sermon (and who does not feel himself capable of at least a couple) my first text should be upon the theme: Shift Your Gears. I should begin with a pertinent illustration. It would be the picture of a motor-car and a long hill. You size up the hill from the bottom and attempt it on the high gear. The grade proves to be steeper than at first thought. The engines begin to pound. But you have vowed to make the top on the high gear. By simply shifting over, with whatever reluctance, all would be well. Instead, you let the engine fret and throb, perhaps stall itself or wreck something, for your pride's sake. This the picture. Then the Moral Application (which every one has seen coming all along). "Now, good friends, isn't this just what we are trying to do? Are we not playing the foolish chauffeur, and wearing out our engines needlessly, when we attempt to take all life's roads upon the high speeds? Shift your gears before it is too late!"—E. P. Frost, in the Atlantic.

KNOW THE COMMANDMENTS.

A teacher in a big elementary school had given lessons to an "in-fants" class on the Ten Commandments. In order to test their memories she asked:
"Can any little child give me a commandment with only four words in it?"
A hand was raised immediately.
"Well," said the teacher.
"Keep off the grass," was the unexpected reply. —EX.

OPENING THE BRIDGE.

When the rebels captured the railway between Laredo and Saltillo some promise of relief from the stagnant business condition of the Laredo merchants seemed to be promised. Goods were brought in from interior Mexican points, and Laredo shippers began to feel almost cheerful.

There was but one fly in the ointment, and that was that the bridge belonging to the National lines of Mexico remained closed. This necessitated a long wagon haul for the goods at both ends of the bridge, and the merchants here prevailed upon the Chamber of Commerce to make an appeal for the opening of the bridge.

The natural opposition, which might have been expected, came from the president of the Mexican National lines. He protested against the use of the bridge by the rebels, and it is likely that if the bridge he opened by the Texas Railway Commission or the Interstate Commerce Commission, a claim for damages will be filed by the Mexican National owners.

That the Laredo merchants, as well as the shippers in Nuevo Laredo, have to make a long wagon haul of the goods passing back and forth, naturally would not appeal either to the officials or the stockholders of the railways. The bridge, while being the link between the two nations, is also the private property of the stockholders of the Mexican lines, and it is not reasonable to expect that they would willingly give permission to use it for traffic without a prospect of a return.

So far as the possession of the Mexican railways is concerned, they can do nothing until a government of some sort is established. The seizure without compensation of their right of way and their rolling stock cannot be helped by any act of either the owners or the United States for the present.

But the bridge is another question. There is no doubt that they have right on their side in their refusal to permit the use of the bridge without some compensation, either from the Americans who will benefit from its use, or from the rebel holders of the railroad, who could well afford to guarantee payment for the traffic across the bridge.

The cars and engines which were seized by the rebels have been repainted with the words, "Constitutionalist Railways of Mexico." The two engines which sent across the bridge for the purpose of bringing in the stalled trains left by the federals in their flight have also been lettered with the new name adopted by the rebels now in possession.

The revenues of the railway are being turned in to the rebel war fund—supposedly, at least—and the real owners of the road do not receive a penny of income from it. Nor have they for some months, it may be added, but when the federals were in possession of the railroad there was at least a prospect of compensation in the future.

The shippers of Laredo would be greatly benefited by the opening of the bridge across the river. So also would be the shippers in Monterey and other inland points. So also would the rebel authorities who are now receiving the entire revenue of the road, without its having cost them a cent originally.

But the people who built the bridge at a vast outlay are not in a position to recover anything for the use of the bridge, even if they consent to its use. So it is not strange that they refuse to permit it to be used gratis.

SELLING OUR BATTLESHIPS.

Aside from the sentimental side of the question, the proposal to sell two of our obsolete battleships has a practical touch that should go far toward recommending it to our citizens.

When a naval vessel becomes a second-rate fighting machine, it is too costly to keep. The primary object of a battleship is to be able to put opposing battleships out of commission. The progress made in naval construction is so rapid that in less than a decade a vessel is practically worthless on the fighting line, and that, too, without deterioration of hull or machinery.

Battleships are costly things to build; not only because their first cost is so great nor even because of the repairs which are necessary each year, but because after a few years they are no longer equal to the battleships of other nations.

The opponents of a larger navy are in favor of selling the obsolete Mississippi and Idaho, the proceeds to be invested in one of the new vessels which have been authorized. This plan also suits those who wish to see out navy brought up to date, because it will get rid of two vessels that would be practically useless in a fight against the navy of any of the great powers.

There are several nations who would be glad to purchase some of our discarded vessels, for the reason that their possession would increase the importance of the smaller nations, and at the same time they do not expect to be opposed in war to a nation which has superior vessels.

The news that Greece was negotiating for the purchase of the two battleships aroused considerable comment, much of it adverse, some of the sentimentalists going so far as to say that the ships should be sent to the scrap heap when they were no longer of value to us.

But the sale to Greece would not antagonize any but a sentimental reason. We have sold, and are daily sell-

ing, things which are of no further value to us. There is hardly a week passes without a sale of condemned quartermaster's stores, which include almost everything except arms and ammunition which is used by our army. We frequently sell large quantities of rifles, not because they are worn out, but because we have adopted a more modern arm, and yet there is no complaint that this is improper.

There is but one thing, probably, which we do not sell. When a flag is worn out and no longer fit to be used, it is placed on the list of articles to be condemned by the inspector, and when condemned is (more or less) reverently burned. It is never permitted to be sold or given away, and is never permitted to fall into alien hands.

While there is a certain amount of reverence for our ancient ships, such as Old Ironsides, among our population, there is no particular reason why the millions tied up in some of our obsolete war vessels should be thrown away by sending them to the scrap heap. To few of them attaches any sentimental idea of relic worship.

The old Maine was buried at sea after it was found that she could not be repaired and restored. The Oregon, it seems, is to be sent through the Panama Canal on the occasion of its formal opening. Other vessels have kept long after they had outlived their usefulness, even when it was impossible to find officers and sailors to man them without letting other vessels go out of commission.

If Greece wants the two battleships badly enough to buy them at the figure quoted, which was stated to be the cost of building them, let her have them. The money obtained from the sale would permit—almost—of building another dreadnaught, which we seem to need very badly ourselves. And Greece is likely to do nothing which would disgrace the former record of the two vessels.

For a while, it seems to be speaking for Carranza, says that it is the first chief's plan to continue the campaign regardless of the participation in the mediation, which the United States wants. This will be sad news for Mr. Bryan.

It is not known whether or not the bridge is to be lettered "constitutionalist bridge," but from the emphatic statement of President Brown, if it is, it will be with a promise to pay back of it.

The people of Guaymas are starving, but they still hold the town, although it was confidently announced by the rebels a year ago that they would have it in a week or so. The Guaymas people seem of a different breed from those in some other towns.

The fight at Zacatecas is said to have been hand-to-hand. But that does not take into account the terrible work of the machine guns, which seem to have caused the death of hundreds of the assailants. Certainly war, as practiced in Mexico, is worse than Sherman said it was.

Some men in Houston tried to stop an elevator by taking hold of the wire cable. But it was crossed with a high-power electric wire, and the men don't know yet whether the elevator stopped or not.

THE MERRY BASEBALL WAR.

New York, June 27.—"I could wreck the American and National leagues in 48 hours if I signed all the players of these two organizations who have asked to be taken into the Federal league." Those spoke General Gilmore, commander-in-chief of the Federal forces, as he toyed with a check for several hundred thousand beans which was to be used as bait for jumping ball tossers.

When Gilmore's bold assertion was repeated to Bancroft Johnson, the major-general of organized baseball, the M. G. said: "If there are any of our players who are ready to jump to the Federals I say let them jump, so we may know who they are and rid the sport of men who are in the game for purely mercenary reasons."

That mercenary stuff of Ban's is the goods. It surely will share any of the big leaguers who jump to the Federals for then we shall know they are willing to play baseball for money. If that sort of thing keeps up it won't be long before the players will be just as eager for the mazzina as the magnates. And then what will become of the grand old game?

If the Federals decide to make any considerable increase in the number of star players now on their payroll it will be for the purpose of crippling the older leagues and not because the Federals need the players. A few well-known players added to the circuit would perhaps boost the gate receipts here and there, but if the Federals continue to stage the tight pennant race they have been putting up of late they are sure to get the coin with the present line-ups.

From the viewpoint of the fans a real pennant race is one in which every team in the league has a chance to cop the bunting. At the present time the Federals appear better able to furnish a race of this sort than either the National or American leagues. So why should the new organization load up with expensive players, many of whom have been in fast company a number of years and soon will be ready to take the down grade?

The experience of the American league in the matter of distributing the playing strength should be taken as a lesson by the Federals. When the American league was organized a small number of National leaguers were induced to jump to the new league. American league served up to the fans some of the hottest pennant battles in the history of the game.

Then came the wholesale raid on the National league and soon the American league circuit was clogged with big league stars. A short time later the stars began to fade and the Americans found themselves pretty much in the same fix as the old National league with a circuit that each season comprised from two to four teams that didn't have even an outside chance for the pennant.

Perhaps the Federals can get away with the star-crabbing stunt, but even if they do it's dollars to doughnuts they never will be able to put up a more interesting championship struggle than they are staging right now.

With your Uncle Samuel's champion poloists, champion golfers and leading college runners taking the court at the hands of our English cousins it begins to look as though John Bull was all set for a clean-up in sporting matters this year.

We still have a chance or two left to show some class. These will be furnished by the Henley regatta and the American Cup races. If our water wazons fail to deliver in these aquatic events it will be "good night" international champions for we'uns.

The Henley regatta, the first of the two international competitions, will take place next week. In the contest for the Grand Challenge Cup the United States will be represented by the Union Boat Club crew of Boston and the Harvard 1914 second crew. The Union Boat Club crew is considered about as classy a crew as could be formed in this country at the present time. With the exception of one member, who is a former Yale oarsman, the crew is made up entirely of former Harvard oar wielders. The Harvard second crew also is expected to make a good showing, the expectation being based on the crew's recent brilliant victory over Yale.

FIRST BATTALION LEFT TODAY

Second Battalion of Ninth Infantry Returned From Target Range and First Goes There.

The first battalion of the Ninth Infantry, Captain Rethers commanding, left here this morning for the target range, where they will put in two weeks at practice in marksmanship efficiency and going through maneuvers incident with work on the target range.

The second battalion of the same regiment, which has been on the target range during the past two weeks, returned to their station at the Ninth Infantry camp yesterday evening. As soon as the first battalion shall have completed their work on the range another battalion will be dispatched to the scene to engage in similar work.

Among the soldiery of the Ninth Infantry are some of the best marksmen in the army, and the practice work now being done conduces considerably to making others reach the high standard of efficiency attained by other members of the regiment.

NOTICE.

Due to the continued high and extremely muddy condition of the river, we are experiencing a great deal of trouble at our pumping plant on account of the sand and mud clogging and choking the suction pipes, which naturally decreases our clear water supply, as well as prevents our maintaining a high pressure.

We wish to assure our patrons that we are doing everything possible in our power to overcome this unavoidable situation by keeping a force of men constantly at work day and night, but as long as the muddy condition of the river continues, we will be greatly handicapped, and we request the public to be as careful and economical in their use of water as possible.

We will say, however, that in case of fire we will be in a position to furnish ample pressure.

Therefore we request the public to be as patient as possible for a few days until conditions over which we have no control, and cannot be avoided, are improved.

BUSINESS PICKS UP IN TAMPICO

Normal Conditions Have Been Restored There and Many of the Refugees Are Now Returning.

George H. Langridge, who conducts an extensive garage business in Tampico, and who left that place about six weeks ago and has been in Galveston and Corpus Christi since, arrived here yesterday afternoon and left this morning for Tampico by railway.

Advices received by Mr. Langridge from Tampico were to the effect that business was again resuming its old-time activity, that many places which had closed their doors have reopened and that all the Americans who had been advised to leave there in the latter part of April have returned to the city.

While in this state Mr. Langridge placed an order for a lot of modern machinery to be used in his garage, and this will be sent from Galveston to Tampico via steamer.

President Brown Will Not Consent.

Anent the item published in yesterday's Times under an Austin date of the Associated Press, President Brown of the National Railways of Mexico has advised the Texas railroad commission that he will not consent to the use of the international railway bridge here for the accommodation of trains between the two Laredos. From a logical standpoint Mr. Brown appears to have acted wisely in this matter and the answer given by him to the request of the Texas railroad commission, following the protest from the Laredo Chamber of Commerce, was nothing more than was expected. He may next be asked to furnish the fuel to operate the trains for the rebels.

NEW MANAGEMENT FOR ESPEJO

Big Land and Irrigation Enterprise Passes Under the Management of Sames, Moore & Co.

On June 1 Ernest Anderson, who for the past two years has acted in the capacity of manager of the Espejo Land & Irrigation Co., one of the largest enterprises of its size in this section and including a vast area of fertile land on the Rio Grande about fifteen miles southeast of Laredo, tendered his resignation, same to be effective July 1. On Tuesday next Mr. Anderson, who has been assisted in the affairs of the ranch by his two brothers, Sam and Van, will retire.

On July 1 the management of the Espejo will pass into the hands of Sames, Moore & Co., one of the stock holders, and they will install Mr. Ornelas as supervisor. Ernest Anderson has accepted a lucrative position as civil engineer with a corporation in Mexico, he being a man well qualified for the position, as this is his vocation. Sam and Van Anderson will engage in the stock business and have already begun preparations for embarking in the stock raising bandy.

Funeral of Mrs. F. H. Lithgow.

The funeral of Mrs. F. H. Lithgow, who passed away at the Mercy Hospital at 8:35 yesterday morning following a four days' illness from hemorrhage of the brain, occurred this morning at 10 o'clock from the home of G. H. Winch, a half-brother of Mr. Lithgow. The remains were removed to the Winch home yesterday forenoon and during the day a large number of friends of the departed one called to take a last look at the face of she who slept there in eternal slumber. Floral tributes galore were sent to the Winch home and were banked about the casket, forming a beautiful mound as a mute attestation of the high esteem in which Mrs. Lithgow was held by all.

From the Winch home the funeral procession proceeded to the Episcopal church, where the obsequies were conducted by Rev. Cook. Interment was made in the Masonic burial grounds in the city cemetery and a large concourse of sorrowing friends followed the remains to their last resting place. The following acted as pallbearers: Active—G. C. Horner, B. M. Alexander, J. F. Gunther, R. K. Mims, E. S. Russell and J. E. Cluck. Honorary—like Alexander, J. S. Westbrook, John Colman, A. C. Ernest left here several days ago for Brownsville on a business trip, making the trip to and from Brownsville on the down river route in his automobile.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running snivel or imperfect hearing, and when it is chronically inflamed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. This cases out of ten are cured by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

It is Perkins Himself.

In today's issue of the Times appears a fine likeness of Hon. W. R. Perkins, county judge of Jim Wells county, who is a candidate for the state senate subject to the action of the Democratic primaries next month. This is a photo of Judge Perkins himself, and not that of some handsome looking friend who might have posed for him, as is the case with some candidates who make the race for office on their looks.

Little beams of moonshine,
Little hugs and kisses,
Make a little maiden
Change her name to Mrs.

A REGAL HEAD

How often do we hear or see this expression used in describing a beautiful woman?

Denote that head of her hair and instead of a queenly, royal bearing we have a fright. The hair makes all the difference. To have that glorious abundance of radiant hair which adorns a crown "a regal head," one should use Newbald's Herpicide.

Herpicide represents the last word in scientific hair culture. It destroys the dandruff germ, checks falling hair and cures generally, diseases of the hair and scalp.

The positive results and its delicate but refreshing odor recommend Newbald's Herpicide to ladies of refinement everywhere.

Send me in postage for sample bottle of Herpicide and booklet to The Herpicide Co., Dept. R., Detroit, Mich.

One dollar size bottle sold and guaranteed by all druggists.

Applications made by the best barbers and hair dressers. (Adv.)
